- copyright to your changes, even after your contribution becomes part of our codebase, so we need your permission to use and distribute your code. We also need to be sure of various other things—for instance that you'll tell us if you know that your code infringes on other people's patents. You don't have to sign the CLA until after you've submitted your code for review and a member has approved it, but you must do it before we can put your code into our codebase. Before you start working on a larger contribution, you should get in touch with us first through the issue tracker with your idea so that we can help out and possibly guide you. Coordinating up front makes it much easier to avoid frustration later on. ### Code reviews

ect or
indirect, to cause the direction or management of such entity, whether
```

```
by
contract or otherwise, or (ii) ownership of fifty percent (50%) or more
of the
outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising p
ermissions
granted by this License.

"Source" form shall mean the preferred form for making modifications, i
ncluding
but not limited to software source code, documentation source, and conf
iguration
files.

"Object" form shall mean any form resulting from mechanical transformat
ion or
translation of a Source form, including but not limited to compiled obj
ect code,
generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object f
orm, made
available under the License, as indicated by a copyright notice that is
included
in or attached to the work (an example is provided in the Appendix belo
w).

"Derivative Works" shall mean any work, whether in Source or Object for
m, that is
based on (or derived from) the Work and for which the editorial revisio
ns,
annotations, elaborations, or other modifications represent, as a whole
, an
original work of authorship. For the purposes of this License, Derivati
ve Works
shall not include works that remain separable from, or merely link (or
bind by
name) to the interfaces of, the Work and Derivative Works thereof.
```

"Contribution" shall mean any work of authorship, including the original version
of the Work and any modifications or additions to that Work or Derivative Works
thereof, that is intentionally submitted to Licensor for inclusion in the Work by
the copyright owner or by an individual or Legal Entity authorized to submit on
behalf of the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent to the
Licensor or its representatives, including but not limited to communication on
electronic mailing lists, source code control systems, and issue tracking systems
that are managed by, or on behalf of, the Licensor for the purpose of discussing
and improving the Work, but excluding communication that is conspicuously marked
or otherwise designated in writing by the copyright owner as "Not a
Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of
whom a Contribution has been received by Licensor and subsequently incorporated
within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide,
non-exclusive, no-charge, royalty-free, irrevocable copyright license to
reproduce, prepare Derivative Works of, publicly display, publicly perform,
sublicense, and distribute the Work and such Derivative Works in Source or Object
form.

3. Grant of Patent License. Subject to the terms and conditions of this License,
each Contributor hereby grants to You a perpetual, worldwide, non-exclusive,
no-charge, royalty-free, irrevocable (except as stated in this section) patent
license to make, have made, use, offer to sell, sell, import, and otherwise
transfer the Work, where such license applies only to those patent claims
licensable by such Contributor that are necessarily infringed by their
Contribution(s) alone or by combination of their Contribution(s) with the Work to
which such Contribution(s) was submitted. If You institute patent litigation
against any entity (including a cross-claim or counterclaim in a lawsuit)
alleging that the Work or a Contribution incorporated within the Work constitutes
direct or contributory patent infringement, then any patent licenses granted to
You under this License for that Work shall terminate as of the date such
litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or
Derivative Works thereof in any medium, with or without modifications, and in
Source or Object form, provided that You meet the following conditions:

a. You must give any other recipients of the Work or Derivative Works a copy of
this License; and

b. You must cause any modified files to carry prominent notices stating that
You changed the files; and

c. You must retain, in the Source form of any Derivative Works that You

distribute, all copyright, patent, trademark, and attribution notices f
rom
the Source form of the Work, excluding those notices that do not pertai
n to
any part of the Derivative Works; and

d. If the Work includes a "NOTICE" text file as part of its distributio
n, then
any Derivative Works that You distribute must include a readable copy o
f the
attribution notices contained within such NOTICE file, excluding those
notices that do not pertain to any part of the Derivative Works, in at
least
one of the following places: within a NOTICE text file distributed as p
art of
the Derivative Works; within the Source form or documentation, if provi
ded
along with the Derivative Works; or, within a display generated by the
Derivative Works, if and wherever such third-party notices normally app
ear.
The contents of the NOTICE file are for informational purposes only and
do
not modify the License. You may add Your own attribution notices within
Derivative Works that You distribute, alongside or as an addendum to th
e
NOTICE text from the Work, provided that such additional attribution no
tices
cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may
provide
additional or different license terms and conditions for use, reproduct
ion, or
distribution of Your modifications, or for any such Derivative Works as
a whole,
provided Your use, reproduction, and distribution of the Work otherwise
complies
with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,

any
Contribution intentionally submitted for inclusion in the Work by You t
o the
Licensor shall be under the terms and conditions of this License, witho
ut any
additional terms or conditions. Notwithstanding the above, nothing here
in shall
supersede or modify the terms of any separate license agreement you may
have
executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names,
trademarks, service marks, or product names of the Licensor, except as
required
for reasonable and customary use in describing the origin of the Work a
nd
reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed
to in
writing, Licensor provides the Work (and each Contributor provides its
Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF
ANY KIND,
either express or implied, including, without limitation, any warrantie
s or
conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR
A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any risk
s
associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whet
her in
tort (including negligence), contract, or otherwise, unless required by
applicable law (such as deliberate and grossly negligent acts) or agree
d to in
writing, shall any Contributor be liable to You for damages, including
any

direct, indirect, special, incidental, or consequential damages of any character
arising as a result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill, work stoppage,
computer failure or malfunction, or any and all other commercial damages or
losses), even if such Contributor has been advised of the possibility of such
damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or
Derivative Works thereof, You may choose to offer, and charge a fee for,
acceptance of support, warranty, indemnity, or other liability obligations and/or
rights consistent with this License. However, in accepting such obligations, You
may act only on Your own behalf and on Your sole responsibility, not on behalf of
any other Contributor, and only if You agree to indemnify, defend, and hold each
Contributor harmless for any liability incurred by, or claims asserted against,
such Contributor by reason of your accepting any such warranty or additional
liability.

1.2 "Contributor" means any person or entity that creates or contribute

1.5 "Larger Work" means a work which combines Covered Code or portions thereof
with code not governed by the terms of this License.

1.6 "Modifications" mean any addition to, deletion from, and/or change to, the
substance and/or structure of the Original Code, any previous Modifications, the

containing Covered Code; and/or (b) any new file or other representation of
computer program statements that contains any part of Covered Code.

1.7 "Original Code" means (a) the Source Code of a program or other work as
originally made available by Apple under this License, including the Source Code

plus any associated interface definition files, scripts used to control
compilation and installation of an executable (object code).

this License. For legal entities, "You" or "Your" includes any entity w

gement of
such entity, whether by contract or otherwise, or (b) ownership of fift
y percent
(50%) or more of the outstanding shares or beneficial ownership of such
entity.

2. Permitted Uses; Conditions & Restrictions. Subject to the terms and
conditions
of this License, Apple hereby grants You, effective on the date You acc
ept this
License and download the Original Code, a world-wide, royalty-free, non
-exclusive
license, to the extent of Apple's Applicable Patent Rights and copyrigh
ts
covering the Original Code, to do the following:

2.1 Unmodified Code. You may use, reproduce, display, perform, internal
ly
distribute within Your organization, and Externally Deploy verbatim, un
modified
copies of the Original Code, for commercial or non-commercial purposes,
provided
that in each instance: (a) You must retain and reproduce in all copies
of
Original Code the copyright and other proprietary notices and disclaime
rs of
Apple as they appear in the Original Code, and keep intact all notices
in the
Original Code that refer to this License; and (b) You must include a co
py of this
License with every copy of Source Code of Covered Code and documentatio
n You
distribute or Externally Deploy, and You may not offer or impose any te

rms on
such Source Code that alter or restrict this License or the recipients' rights
hereunder, except as permitted under Section 6.

2.2 Modified Code. You may modify Covered Code and use, reproduce, display,
perform, internally distribute within Your organization, and Externally Deploy
Your Modifications and Covered Code, for commercial or non-commercial purposes,
provided that in each instance You also meet all of these conditions: (a) You
must satisfy all the conditions of Section 2.1 with respect to the Source Code of
the Covered Code; (b) You must duplicate, to the extent it does not already
exist, the notice in Exhibit A in each file of the Source Code of all Your
Modifications, and cause the modified files to carry prominent notices stating
that You changed the files and the date of any change; and (c) If You Externally
Deploy Your Modifications, You must make Source Code of all Your Externally
Deployed Modifications either available to those to whom You have Externally
Deployed Your Modifications, or publicly available. Source Code of Your
Externally Deployed Modifications must be released under the terms set forth in
this License, including the license grants set forth in Section 3 below, for as
long as you Externally Deploy the Covered Code or twelve (12) months from the
date of initial External Deployment, whichever is longer. You should preferably
distribute the Source Code of Your Externally Deployed Modifications
electronically (e.g. download from a web site).

2.3 Distribution of Executable Versions. In addition, if You Externally

Deploy
Covered Code (Original Code and/or Modifications) in object code, executable form
only, You must include a prominent notice, in the code itself as well as in
related documentation, stating that Source Code of the Covered Code is available
under the terms of this License with information on how and where to obtain such
Source Code.

2.4 Third Party Rights. You expressly acknowledge and agree that although Apple
and each Contributor grants the licenses to their respective portions of the
Covered Code set forth herein, no assurances are provided by Apple or any
Contributor that the Covered Code does not infringe the patent or other
intellectual property rights of any other entity. Apple and each Contributor
disclaim any liability to You for claims brought by any other entity based on
infringement of intellectual property rights or otherwise. As a condition to
exercising the rights and licenses granted hereunder, You hereby assume sole
responsibility to secure any other intellectual property rights needed, if any.
For example, if a third party patent license is required to allow You to
distribute the Covered Code, it is Your responsibility to acquire that license
before distributing the Covered Code.

3. Your Grants. In consideration of, and as a condition to, the licenses granted
to You under this License, You hereby grant to any person or entity receiving or
distributing Covered Code under this License a non-exclusive, royalty-free,

perpetual, irrevocable license, under Your Applicable Patent Rights and other
intellectual property rights (other than patent) owned or controlled by You, to
use, reproduce, display, perform, modify, sublicense, distribute and Externally
Deploy Your Modifications of the same scope and extent as Apple's licenses under
Sections 2.1 and 2.2 above.

4. Larger Works. You may create a Larger Work by combining Covered Code with
other code not governed by the terms of this License and distribute the Larger
Work as a single product. In each such instance, You must make sure the
requirements of this License are fulfilled for the Covered Code or any portion
thereof.

5. Limitations on Patent License. Except as expressly stated in Section 2, no
other patent rights, express or implied, are granted by Apple herein.
Modifications and/or Larger Works may require additional patent licenses from
Apple which Apple may grant in its sole discretion.

6. Additional Terms. You may choose to offer, and to charge a fee for, warranty,
support, indemnity or liability obligations and/or other rights consistent with
the scope of the license granted herein ("Additional Terms") to one or more
recipients of Covered Code. However, You may do so only on Your own behalf and as
Your sole responsibility, and not on behalf of Apple or any Contributor. You must
obtain the recipient's agreement that any such Additional Terms are offered by
You alone, and You hereby agree to indemnify, defend and hold Apple and every

Contributor harmless for any liability incurred by or claims asserted a
gainst
Apple or such Contributor by reason of any such Additional Terms.

7. Versions of the License. Apple may publish revised and/or new versio
ns of this
License from time to time. Each version will be given a distinguishing
version
number. Once Original Code has been published under a particular versio
n of this
License, You may continue to use it under the terms of that version. Yo
u may also
choose to use such Original Code under the terms of any subsequent vers
ion of
this License published by Apple. No one other than Apple has the right
to modify
the terms applicable to Covered Code created under this License.

8. NO WARRANTY OR SUPPORT. The Covered Code may contain in whole or in
part
pre-release, untested, or not fully tested works. The Covered Code may
contain
errors that could cause failures or loss of data, and may be incomplete
or
contain inaccuracies. You expressly acknowledge and agree that use of t
he Covered
Code, or any portion thereof, is at Your sole and entire risk. THE COVE
RED CODE
IS PROVIDED "AS IS" AND WITHOUT WARRANTY, UPGRADES OR SUPPORT OF ANY KI
ND AND
APPLE AND APPLE'S LICENSOR(S) (COLLECTIVELY REFERRED TO AS "APPLE" FOR
THE
PURPOSES OF SECTIONS 8 AND 9) AND ALL CONTRIBUTORS EXPRESSLY DISCLAIM A
LL
WARRANTIES AND/OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LI
MITED TO,
THE IMPLIED WARRANTIES AND/OR CONDITIONS OF MERCHANTABILITY, OF SATISFA
CTORY
QUALITY, OF FITNESS FOR A PARTICULAR PURPOSE, OF ACCURACY, OF QUIET ENJ
OYMENT,

AND NONINFRINGEMENT OF THIRD PARTY RIGHTS. APPLE AND EACH CONTRIBUTOR DOES NOT
WARRANT AGAINST INTERFERENCE WITH YOUR ENJOYMENT OF THE COVERED CODE, THAT THE
FUNCTIONS CONTAINED IN THE COVERED CODE WILL MEET YOUR REQUIREMENTS, THAT THE
OPERATION OF THE COVERED CODE WILL BE UNINTERRUPTED OR ERROR-FREE, OR THAT
DEFECTS IN THE COVERED CODE WILL BE CORRECTED. NO ORAL OR WRITTEN INFORMATION OR
ADVICE GIVEN BY APPLE, AN APPLE AUTHORIZED REPRESENTATIVE OR ANY CONTRIBUTOR
SHALL CREATE A WARRANTY. You acknowledge that the Covered Code is not intended
for use in the operation of nuclear facilities, aircraft navigation,
communication systems, or air traffic control machines in which case the failure
of the Covered Code could lead to death, personal injury, or severe physical or
environmental damage.

9. LIMITATION OF LIABILITY. TO THE EXTENT NOT PROHIBITED BY LAW, IN NO EVENT
SHALL APPLE OR ANY CONTRIBUTOR BE LIABLE FOR ANY INCIDENTAL, SPECIAL, INDIRECT OR
CONSEQUENTIAL DAMAGES ARISING OUT OF OR RELATING TO THIS LICENSE OR YOUR USE OR
INABILITY TO USE THE COVERED CODE, OR ANY PORTION THEREOF, WHETHER UNDER A THEORY
OF CONTRACT, WARRANTY, TORT (INCLUDING NEGLIGENCE), PRODUCTS LIABILITY OR
OTHERWISE, EVEN IF APPLE OR SUCH CONTRIBUTOR HAS BEEN ADVISED OF THE POSSIBILITY
OF SUCH DAMAGES AND NOTWITHSTANDING THE FAILURE OF ESSENTIAL PURPOSE OF ANY
REMEDY. SOME JURISDICTIONS DO NOT ALLOW THE LIMITATION OF LIABILITY OF INCIDENTAL
OR CONSEQUENTIAL DAMAGES, SO THIS LIMITATION MAY NOT APPLY TO YOU. In no event
shall Apple's total liability to You for all damages (other than as may

be
required by applicable law) under this License exceed the amount of fif
ty dollars
($50.00).

10. Trademarks. This License does not grant any rights to use the trade
marks or
trade names "Apple", "Apple Computer", "Mac", "Mac OS", "QuickTime", "Q
uickTime
Streaming Server" or any other trademarks, service marks, logos or trad
e names
belonging to Apple (collectively "Apple Marks") or to any trademark, se
rvice
mark, logo or trade name belonging to any Contributor. You agree not to
use any
Apple Marks in or as part of the name of products derived from the Orig
inal Code
or to endorse or promote products derived from the Original Code other
than as
expressly permitted by and in strict compliance at all times with Apple
's third
party trademark usage guidelines which are posted at
eudora="autourl">http://www.apple.com/legal/guidelinesfor3rdparties.htm
l.

11. Ownership. Subject to the licenses granted under this License, each
Contributor retains all rights, title and interest in and to any Modifi
cations
made by such Contributor. Apple retains all rights, title and interest
in and to
the Original Code and any Modifications made by or on behalf of Apple (
"Apple
Modifications"), and such Apple Modifications will not be automatically
subject
to this License. Apple may, at its sole discretion, choose to license s
uch Apple
Modifications under this License, or on different terms from those cont
ained in
this License or may choose not to license them at all.

12. Termination.

12.1 Termination. This License and the rights granted hereunder will te
rminate:
(a) automatically without notice from Apple if You fail to comply with
any
term(s) of this License and fail to cure such breach within 30 days of
becoming
aware of such breach; (b) immediately in the event of the circumstances
described
in Section 13.5(b); or

(c) automatically without notice from Apple if You, at any time during
the term
of this License, commence an action for patent infringement against App
le;
provided that Apple did not first commence an action for patent infring
ement
against You in that instance.

12.2 Effect of Termination. Upon termination, You agree to immediately
stop any
further use, reproduction, modification, sublicensing and distribution
of the
Covered Code. All sublicenses to the Covered Code which have been prope
rly
granted prior to termination shall survive any termination of this Lice
nse.
Provisions which, by their nature, should remain in effect beyond the t
ermination
of this License shall survive, including but not limited to Sections 3,
5, 8, 9,
10, 11, 12.2 and 13. No party will be liable to any other for compensat
ion,
indemnity or damages of any sort solely as a result of terminating this
License
in accordance with its terms, and termination of this License will be w
ithout
prejudice to any other right or remedy of any party.

13. Miscellaneous.

13.1 Government End Users. The Covered Code is a "commercial item" as d
efined in
FAR 2.101. Government software and technical data rights in the Covered
Code
include only those rights customarily provided to the public as defined
in this
License. This customary commercial license in technical data and softwa
re is
provided in accordance with FAR 12.211 (Technical Data) and 12.212 (Com
puter
Software) and, for Department of Defense purchases, DFAR 252.227-7015 (
Technical
Data -- Commercial Items) and 227.7202-3 (Rights in Commercial Computer
Software
or Computer Software Documentation). Accordingly, all U.S. Government E
nd Users
acquire Covered Code with only those rights set forth herein.

13.2 Relationship of Parties. This License will not be construed as cre
ating an
agency, partnership, joint venture or any other form of legal associati
on between
or among You, Apple or any Contributor, and You will not represent to t
he
contrary, whether expressly, by implication, appearance or otherwise.

13.3 Independent Development. Nothing in this License will impair Apple
's right
to acquire, license, develop, have others develop for it, market and/or
distribute technology or products that perform the same or similar func
tions as,
or otherwise compete with, Modifications, Larger Works, technology or p
roducts
that You may develop, produce, market or distribute.

13.4 Waiver; Construction. Failure by Apple or any Contributor to enfor
ce any
provision of this License will not be deemed a waiver of future enforce

ment of
that or any other provision. Any law or regulation which provides that the
language of a contract shall be construed against the drafter will not apply to
this License.

13.5 Severability. (a) If for any reason a court of competent jurisdiction finds
any provision of this License, or portion thereof, to be unenforceable, that
provision of the License will be enforced to the maximum extent permissible so as
to effect the economic benefits and intent of the parties, and the remainder of
this License will continue in full force and effect. (b) Notwithstanding the
foregoing, if applicable law prohibits or restricts You from fully and/or
specifically complying with Sections 2 and/or 3 or prevents the enforceability of
either of those Sections, this License will immediately terminate and You must
immediately discontinue any use of the Covered Code and destroy all copies of it
that are in your possession or control.

13.6 Dispute Resolution. Any litigation or other dispute resolution between You
and Apple relating to this License shall take place in the Northern District of
California, and You and Apple hereby consent to the personal jurisdiction of, and
venue in, the state and federal courts within that District with respect to this
License. The application of the United Nations Convention on Contracts for the
International Sale of Goods is expressly excluded.

13.7 Entire Agreement; Governing Law. This License constitutes the enti

re
agreement between the parties with respect to the subject matter hereof
. This
License shall be governed by the laws of the United States and the Stat
e of
California, except that body of California law concerning conflicts of
law.

Where You are located in the province of Quebec, Canada, the following
clause
applies: The parties hereby confirm that they have requested that this
License
and all related documents be drafted in English. Les parties ont exige
que le
present contrat et tous les documents connexes soient rediges en anglai
s.

1. Definitions
--------------

1.1. "Contributor"

means each individual or legal entity that creates, contributes to the
creation
of, or owns Covered Software.

1.2. "Contributor Version"

means the combination of the Contributions of others (if any) used by a
```

means Covered Software of a particular Contributor.

1.4. "Covered Software"

means Source Code Form to which the initial Contributor has attached th
e notice
in Exhibit A, the Executable Form of such Source Code Form, and Modific
ations
of such Source Code Form, in each case including portions thereof.

1.5. "Incompatible With Secondary Licenses"

means

a.

that the initial Contributor has attached the notice described in Exhib
it B

b.

that the Covered Software was made available under the terms of version
1.1
or earlier of the License, but not also under the terms of a Secondary
License.

1.6. "Executable Form"

means any form of the work other than Source Code Form.

1.7. "Larger Work"

means a work that combines Covered Software with other material, in a s
eparate
file or files, that is not Covered Software.

1.8. "License"

means this document.

1.9. "Licensable"

means having the right to grant, to the maximum extent possible, whether at the
time of the initial grant or subsequently, any and all of the rights conveyed
by this License.

1.10. "Modifications"

1.11. "Patent Claims" of a Contributor

means any patent claim(s), including without limitation, method, process, and
apparatus claims, in any patent Licensable by such Contributor that would be

or its Contributor Version.

1.12. "Secondary License"

means either the GNU General Public License, Version 2.0, the GNU Lesse

1.13. "Source Code Form"

means the form of the work preferred for making modifications.

1.14. "You" (or "Your")

means an individual or a legal entity exercising rights under this Lice
nse. For
legal entities, "You" includes any entity that controls, is controlled
by, or
is under common control with You. For purposes of this definition, "con

gement

ore than

f such
entity.

2. License Grants and Conditions

2.1. Grants

Each Contributor hereby grants You a world-wide, royalty-free, non-excl
usive
license:

a.

under intellectual property rights (other than patent or trademark)

Licensable by such Contributor to use, reproduce, make available, modify,
display, perform, distribute, and otherwise exploit its Contributions,
either on an unmodified basis, with Modifications, or as part of a Larger
Work; and

b.

under Patent Claims of such Contributor to make, use, sell, offer for sale,
have made, import, and otherwise transfer either its Contributions or its
Contributor Version.

2.2. Effective Date

The licenses granted in Section 2.1 with respect to any Contribution become
effective for each Contribution on the date the Contributor first distributes
such Contribution.

2.3. Limitations on Grant Scope

The licenses granted in this Section 2 are the only rights granted under this
License. No additional rights or licenses will be implied from the distribution
or licensing of Covered Software under this License. Notwithstanding
Section 2.1(b) above, no patent license is granted by a Contributor:

a.

for any code that a Contributor has removed from Covered Software; or

b.

for infringements caused by: (i) Your and any other third party's modifications of Covered Software, or (ii) the combination of its Contributions with other software (except as part of its Contributor Version); or

c.

under Patent Claims infringed by Covered Software in the absence of its Contributions.

This License does not grant any rights in the trademarks, service marks, or
logos of any Contributor (except as may be necessary to comply with the notice
requirements in Section 3.4).

2.4. Subsequent Licenses

No Contributor makes additional grants as a result of Your choice to distribute
the Covered Software under a subsequent version of this License (see Section 10.2) or under the terms of a Secondary License (if permitted under the
terms of Section 3.3).

2.5. Representation

Each Contributor represents that the Contributor believes its Contributions are
its original creation(s) or it has sufficient rights to grant the rights to its
Contributions conveyed by this License.

2.6. Fair Use

This License is not intended to limit any rights You have under applicable

copyright doctrines of fair use, fair dealing, or other equivalents.

2.7. Conditions

Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in
Section 2.1.

3. Responsibilities

3.1. Distribution of Source Form

All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the
terms of this License. You must inform recipients that the Source Code Form of
the Covered Software is governed by the terms of this License, and how they can
obtain a copy of this License. You may not attempt to alter or restrict the
recipients' rights in the Source Code Form.

3.2. Distribution of Executable Form

If You distribute Covered Software in Executable Form then:

a.

such Covered Software must also be made available in Source Code Form, as
described in Section 3.1, and You must inform recipients of the Executa ble
Form how they can obtain a copy of such Source Code Form by reasonable means in a timely manner, at a charge no more than the cost of distribu

tion
to the recipient; and

b.

You may distribute such Executable Form under the terms of this License
, or
sublicense it under different terms, provided that the license for the
Executable Form does not attempt to limit or alter the recipients' righ
ts
in the Source Code Form under this License.

3.3. Distribution of a Larger Work

You may create and distribute a Larger Work under terms of Your choice,
provided that You also comply with the requirements of this License for
the
Covered Software. If the Larger Work is a combination of Covered Softwa
re with
a work governed by one or more Secondary Licenses, and the Covered Soft
ware is
not Incompatible With Secondary Licenses, this License permits You to
additionally distribute such Covered Software under the terms of such S
econdary
License(s), so that the recipient of the Larger Work may, at their opti
on,
further distribute the Covered Software under the terms of either this
License
or such Secondary License(s).

3.4. Notices

You may not remove or alter the substance of any license notices (inclu
ding
copyright notices, patent notices, disclaimers of warranty, or limitati
ons of
liability) contained within the Source Code Form of the Covered Softwar
e,

except that You may alter any license notices to the extent required to remedy
known factual inaccuracies.

3.5. Application of Additional Terms

You may choose to offer, and to charge a fee for, warranty, support, indemnity
or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any
Contributor. You must make it absolutely clear that any such warranty, support,
indemnity, or liability obligation is offered by You alone, and You hereby
agree to indemnify every Contributor for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You
offer. You may include additional disclaimers of warranty and limitations of
liability specific to any jurisdiction.

4. Inability to Comply Due to Statute or Regulation

If it is impossible for You to comply with any of the terms of this License with
respect to some or all of the Covered Software due to statute, judicial order, or
regulation then You must: (a) comply with the terms of this License to the
maximum extent possible; and (b) describe the limitations and the code they
affect. Such description must be placed in a text file included with all
distributions of the Covered Software under this License. Except to the extent
prohibited by statute or regulation, such description must be sufficien

tly
detailed for a recipient of ordinary skill to be able to understand it.

5. Termination

5.1. The rights granted under this License will terminate automatically if You
fail to comply with any of its terms. However, if You become compliant, then
the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and
finally terminates Your grants, and (b) on an ongoing basis, if such
Contributor fails to notify You of the non-compliance by some reasonable means
prior to 60 days after You have come back into compliance. Moreover, Your
grants from a particular Contributor are reinstated on an ongoing basis if such
Contributor notifies You of the non-compliance by some reasonable means, this
is the first time You have received notice of non-compliance with this License
from such Contributor, and You become compliant prior to 30 days after Your
receipt of the notice.

5.2. If You initiate litigation against any entity by asserting a patent
infringement claim (excluding declaratory judgment actions, counter-claims, and
cross-claims) alleging that a Contributor Version directly or indirectly
infringes any patent, then the rights granted to You by any and all
Contributors for the Covered Software under Section 2.1 of this License shall
terminate.

5.3. In the event of termination under Sections 5.1 or 5.2 above, all end user
license agreements (excluding distributors and resellers) which have been
validly granted by You or Your distributors under this License prior to
termination shall survive termination.

6. Disclaimer of Warranty

Covered Software is provided under this License on an "as is" basis, without
warranty of any kind, either expressed, implied, or statutory, including, without
limitation, warranties that the Covered Software is free of defects,
merchantable, fit for a particular purpose or non-infringing. The entire risk as
to the quality and performance of the Covered Software is with You. Should any
Covered Software prove defective in any respect, You (not any Contributor) assume
the cost of any necessary servicing, repair, or correction. This disclaimer of
warranty constitutes an essential part of this License. No use of any Covered
Software is authorized under this License except under this disclaimer.

7. Limitation of Liability

Under no circumstances and under no legal theory, whether tort (including
negligence), contract, or otherwise, shall any Contributor, or anyone who
distributes Covered Software as permitted above, be liable to You for any direct,
indirect, special, incidental, or consequential damages of any character

including, without limitation, damages for lost profits, loss of goodwill, work
stoppage, computer failure or malfunction, or any and all other commercial
damages or losses, even if such party shall have been informed of the possibility
of such damages. This limitation of liability shall not apply to liability for
death or personal injury resulting from such party's negligence to the extent
applicable law prohibits such limitation. Some jurisdictions do not allow the
exclusion or limitation of incidental or consequential damages, so this exclusion
and limitation may not apply to You.

8. Litigation

Any litigation relating to this License may be brought only in the courts of a
jurisdiction where the defendant maintains its principal place of business and
such litigation shall be governed by laws of that jurisdiction, without reference
to its conflict-of-law provisions. Nothing in this Section shall prevent a
party's ability to bring cross-claims or counter-claims.

9. Miscellaneous

This License represents the complete agreement concerning the subject matter
hereof. If any provision of this License is held to be unenforceable, such
provision shall be reformed only to the extent necessary to make it enforceable.

Any law or regulation which provides that the language of a contract shall be
construed against the drafter shall not be used to construe this License against
a Contributor.

10. Versions of the License

10.1. New Versions

Mozilla Foundation is the license steward. Except as provided in Section 10.3,
no one other than the license steward has the right to modify or publish new
versions of this License. Each version will be given a distinguishing version
number.

10.2. Effect of New Versions

You may distribute the Covered Software under the terms of the version of the
License under which You originally received the Covered Software, or under the
terms of any subsequent version published by the license steward.

10.3. Modified Versions

If you create software not governed by this License, and you want to create a
new license for such software, you may create and use a modified version of
this License if you rename the license and remove any references to the name of
the license steward (except to note that such modified license differs

```
from
this License).

10.4. Distributing Source Code Form that is Incompatible With Secondary
