

Integrated Care Manager 11.0 and lower Open Source Licenses

Components of the software used in this Product are insofar as listed below free and open source software licensed under the applicable terms. The copyright holders usually disclaim any warranties and exclude any liability for their free and open source software.

Where stipulated that a source code is to be made available you can find it either online or upon request, we will supply the source code of these free and open source software components on a data medium.

In case certain licenses give you the option to exchange the associated software element such change is not prohibited by us. However, given the nature of our products, their registration and security requirements editing the software of certain products might be depending on you contacting us. Be advised that the software in its specific set up may be (and often is) part of the product registration which is the basis for the legal use of the product. When changing the software of such products you become the manufacturer of the new product with all associated responsibilities and liabilities. This might e.g. entail product liability, new registrations including declaration of conformity, market and post market surveillance, update and cybersecurity monitoring and others. Additionally, we don't assume any liability with regards to the changed software and its implications to the functionality and security of the software or the product as a whole. We further reserve the right to and might be obligated to inform the appropriate authorities about such changed products in the market. The product must be clearly identified as changed and our labels and other manufacturer indications must be removed.

Please observe any additional documents associated with this product (e.g. acknowledgements, notices, additional license documents)

=====

This product includes cryptographic software written by Eric Young (eay@cryptsoft.com). This

product includes software written by Tim Hudson (tjh@cryptsoft.com).

Original SSLeay License

Copyright (C) 1995-1998 Eric Young (eay@cryptsoft.com)

All rights reserved.

This package is an SSL implementation written by Eric Young (eay@cryptsoft.com). The implementation was written so as to conform with Netscapes SSL.

This library is free for commercial and non-commercial use as long as the following conditions are aheared to. The following conditions apply to all code found in this distribution, be it the RC4, RSA, lhash, DES, etc., code; not just the SSL code. The SSL documentation included with this distribution is covered by the same copyright terms except that the holder is Tim Hudson (tjh@cryptsoft.com).

Copyright remains Eric Young's, and as such any Copyright notices in the code are not to be removed. If this package is used in a product, Eric Young should be given attribution as the author of the parts of the library used. This can be in the form of a textual message at program startup or in documentation (online or textual) provided with the package.

Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met:

1. Redistributions of source code must retain the copyright notice, this list of conditions and the following disclaimer.
2. Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution.
3. All advertising materials mentioning features or use of this software must display the following acknowledgement: "This product includes cryptographic software written by Eric Young (eay@cryptsoft.com)" The word 'cryptographic' can be left out if the rouines from the library being used are not cryptographic related :-).
4. If you include any Windows specific code (or a derivative thereof) from the apps directory (application code) you must include an acknowledgement: "This product includes software written by Tim Hudson (tjh@cryptsoft.com)"

THIS SOFTWARE IS PROVIDED BY ERIC YOUNG "AS IS" AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE AUTHOR OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

The licence and distribution terms for any publically available version or derivative of this code cannot be changed. i.e. this code cannot simply be copied and put under another distribution licence [including the GNU Public Licence.]

OpenSSL 1.0.2b OpenSSL License and the original SSLeay license

The licence and distribution terms for any publically available version or derivative of this code cannot be changed. i.e. this code cannot simply be copied and put under another distribution licence [including the GNU Public Licence.]

PDFCreator 1.7.3 GNU AFFERO GENERAL PUBLIC LICENSE (AGPL) & Other license through other components

PDFCreator is licensed under the terms of the GNU AFFERO GENERAL PUBLIC LICENSE (AGPL). This license ensures the most freedom for the users of a piece of software. The license gives you the right to use the software, read and modify the source, create derivate work and give this to your users, as long as you do not change the license and thus grant the same rights to them. But PDFCreator also bundles other components, that can have other licenses.

In General: If you only want to use PDFCreator at home, in your business or anywhere else, you may do it for free and in an unlimited way. You may also give copies to friends, distribute it on all PCs in your company and such things.

Note: If you offer a service that uses PDFCreator, the AGPL requires that you must enable your users to get access to the source code of your service and that you grant them the same rights that you were granted. For example, if you are using PDFCreator as a back-end to convert PDFs from your web service, you must disclose the source of your service. If you plan to integrate PDFCreator into such an application, please feel free to contact us .

It is further not allowed to sell PDFCreator or to integrate it into closed source applications, due to restrictions in the pdfcmon License. This also includes installers with commercial intent (i.e. advertising wrappers). This requires further licensing.

These components are licensed on their own:

Ghostscript: GNU Affero General Public License (see below)

pdfcmon.dll: pdfforge Freeware License (see below)

PDF Architect: PDF Architect End Users License Agreement (see below)

PDFCreator uses multiple open source components which are licensed as follows:

pdfforge Freeware License

Version 1.1

This software is available as freeware.

1. 1.This package is provided "as is" and without any express or implied warranties, including, without limitation, the implied warranties of MERCHANTABILITY and FITNESS FOR A PARTICULAR PURPOSE.
2. 2.The Software may be used in and distributed for personal and commercial use (like in companies). Linking the software with free programs is allowed and the software may be distributed with them, even if the programs are used in a commercial environment.
3. 3.Using the software in commercial applications, whether used directly or linked into the application, requires separate licensing. This also applies if this application or library is included in another application with commercial intent and to commercial wrappers, like advertisement setups.
4. 4.The software may be distributed in unmodified form. You may charge a small amount of money for the CD, bandwidth and similar costs. Selling the software is prohibited without written permission of the copyright holder.
5. 5.The name of the copyright holder may not be used to support or advertise software that was derived from the original without written permission as successor.

PDF Architect End User's Software License Agreement

The software that is subject to this End User's Software License Agreement ("EULA") is the PDF Architect software (the "Licensed Software", as more fully defined below). This EULA is a legally binding agreement between the end user (the "Licensee") and pdfforge GmbH (the "Licensor") pursuant to which the Licensor licenses the use of the Licensed Software to the end user (the "Licensee"). Please read it carefully. If you have any questions concerning this EULA, please contact the Licensor. Any installing, copying, accessing, or using the Licensed Software by you (the "Licensee") constitutes Licensee's acceptance of, and promise to comply with, all of the terms and conditions of this EULA.

LICENSE TERMS

Contents

The "Licensed Software" includes all of the contents of the files, disk(s), CD-ROM(s), DVDs, or other media for which this EULA is provided, including: 1.third party computer information or software that the Licensor has licensed for inclusion in the Licensed Software; 2.written materials or files relating to the Licensed Software ("Documentation"); 3.fonts; and 4.upgrades, modified versions, updates, additions, and copies of the Licensed Software, if any (collectively, "Updates"). Installation Licensee may install one copy of the Licensed Software on a single computer. This present EULA shall apply to all installations of the Licensed Software. Installation of the Licensed Software on more than one computer is prohibited. The Licensor provides for the purchase of multiple licenses, Licensee may install the number of Licenses purchased. Licensee shall be solely responsible for all expenses incurred in Licensee's installation and use of the Licensed Software. Activation The Licensed Software contains technological measures that are designed to prevent its unlicensed or illegal use. The Licensed Software may contain enforcement technology that limits Licensee's ability to install and uninstall the Licensed Software on a machine to no more than a finite number of times, and for a finite number of computers. Per default, the activation system allows 10 installations per Licensee. The Licensee can request more, if he can provide good

reasons why this number of installations was required. The Licensed Software may require activation as explained during installation and in the Documentation. If any such applicable activation procedure(s) is not followed, then the Licensed Software may only operate for a finite period of time. If activation is required, and not completed within the finite period of time set forth in the Documentation and explained during installation, then the Licensed Software will cease to function until activation has been completed, at which time functionality will be restored. If Licensee has any problem with the activation process, Licensee should contact the Licensed Software customer support. Copies Licensee may make one copy of the Licensed Software for backup or archival purposes only, except that the Documentation may not be duplicated. Transfer Licensee may not sell, assign, or transfer the Licensed Software or the License granted by this EULA without prior written consent of the Licensor. Prohibited Uses

1. Licensee may not modify, adapt, translate, sublicense, rent, lease, or loan all or any portion of the Licensed Software or Documentation
2. Licensee may not create any derivative works from all or any portion of the Licensed Software or Documentation;
3. Licensee may not reverse engineer, decompile, disassemble, or otherwise attempt to discover the source code of the Licensed Software;
4. Licensee may not remove or obscure copyright or trademark notices, or the copyright and trademark notices of third parties that have been included in the Licensed Software or Documentation; and
5. Licensee may not use the Licensed Software to host applications for third parties, as part of a facility management, timesharing, service provider, or service bureau arrangement; and
6. Licensee may not use the Licensed Software in any manner that is illegal or not authorized by this EULA.

Content

The Licensed Software enables the Licensee to enter content that will be stored on the computer on which the Licensed Software is installed (such content shall be referred to herein as the "Content"). Licensee is solely responsible for Licensee's use, storage and disclosure of the Content. Licensee may only use the Content responsibly, in a manner consistent with the exercise of good judgment. As PDF software, the Licensed Software will permit the Licensee to enter Content that constitutes non-public personal information of individuals other than the Licensee; the Licensee shall not use, store or disclose any such information without the express consent of the individuals to whom it relates. If Licensee is having difficulty deciding whether Licensee's intended use is appropriate, or whether Licensee needs written permission, or whether other legal issues should be considered, the Licensor strongly encourages Licensee to seek competent legal counsel. The Licensor will not assist Licensee in making this determination, nor can the Licensor provide Licensee with legal advice as to intellectual property rights or privacy laws. Licensee may only use Content which belongs to Licensee and will not violate the rights of others therein. The Licensor will not edit or monitor Content; Licensee therefore assumes exclusive responsibility for the monitoring thereof. Licensee may not use the Licensed Software in conjunction with content that is illegal, obscene, indecent, defamatory, incites racial or ethnic hatred or violates the rights of others, or is in any other way objectionable. If Licensee or Licensee's attorney determines that Licensee is required by law to obtain written permission to use portions of the Content, Licensee must request permission for reproduction, redistribution, or modification of the Content from the appropriate owner of the subject materials (as may be cited in the Licensed Software). If, on the other hand, Licensee or Licensee's attorney determines it is permissible to proceed and include Content from the Licensed Software, the Licensor asks Licensee to correctly designate the Licensor trademark(s) when referring to the licensed software in the notice or copyright portion of Licensee's paper, project, or product. Licensee shall indemnify, hold harmless, and defend the Licensor and the Licensor suppliers from all claims, damages, attorneys' fees, costs, and lawsuits that arise from, or result from, Licensee's use or distribution of Content and its use of the Licensed Software. Software Updates If the Licensed Software is an update to a previous version, Licensee must possess a valid License to the previous version. Any update provided by the Licensor to Licensee is made on a License exchange basis such that Licensee agrees. Once an Update has been released, the Licensor may cease support for prior versions, without any notice to Licensee. Support The Licensor is not obligated by this EULA to provide Licensee with any technical support services relating to the Licensed Software; however, Licensee may order additional support services for an additional charge as the Licensor may offer from time to time during the term of this EULA. Limited Warranty on Media The Licensor warrants that the media on which the Licensed Software is distributed will be free from defects for a period of 30 days from the date the Licensed Software is delivered to Licensee. If Licensee discovers a defect in the media during this 30-day period, Licensee must then return the defective media to the Licensor within 10 calendar days of discovering the defect, and Licensee's sole remedy is to have either the defective media replaced, or at the Licensor sole option, a refund of the money that Licensee paid for the Licensed Software. The warranty given in this paragraph is the only warranty given by the Licensor hereunder. No Warranty on Licensed Software The Licensed Software is provided to Licensee "AS IS." The Licensor, and the Licensor suppliers or affiliates, make no warranty as to its use or performance. The Licensor, AND the Licensor AFFILIATES, MAKE NO WARRANTIES, CONDITIONS, REPRESENTATIONS, OR TERMS

(EXPRESS OR IMPLIED WHETHER BY STATUTE, COMMON LAW, CUSTOM, USAGE, OR OTHERWISE) AS TO ANY MATTER INCLUDING WITHOUT LIMITATION NON-INFRINGEMENT OF THIRD PARTY RIGHTS, MERCHANTABILITY, INTEGRATION, SATISFACTORY QUALITY, OR FITNESS FOR ANY PARTICULAR PURPOSE, EXCEPT FOR, AND TO THE EXTENT, THAT A WARRANTY MAY NOT BE EXCLUDED OR LIMITED BY APPLICABLE LAW IN LICENSEE'S JURISDICTION. Limitation of Liability IN NO EVENT WILL the Licensor, OR the Licensor AFFILIATES, BE LIABLE TO LICENSEE FOR ANY DAMAGES, CLAIMS, OR COSTS WHATSOEVER, OR FOR ANY CONSEQUENTIAL, INDIRECT, INCIDENTAL DAMAGES, OR ANY LOST PROFITS OR LOST SAVINGS, EVEN IF A REPRESENTATIVE OF the Licensor OR ONE OF the Licensor AFFILIATES HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH LOSS, DAMAGES, CLAIMS, OR COSTS, OR FOR ANY CLAIM BY ANY THIRD PARTY. THESE LIMITATIONS AND EXCLUSIONS APPLY TO THE EXTENT PERMITTED BY APPLICABLE LAW IN LICENSEE'S JURISDICTION. THE AGGREGATE LIABILITY OF The Licensor, AND the Licensor AFFILIATES, UNDER OR IN CONNECTION WITH THIS EULA, SHALL BE LIMITED TO THE AMOUNT PAID FOR THE LICENSED SOFTWARE, IF ANY. Additional Terms for Beta Software If the Licensed Software that Licensee receives with this EULA is pre-commercial release or "BETA" software ("Pre-release Software"), then, to the extent that any provision in this section is in conflict with any other term or condition in this EULA, this section supersedes such conflicting term(s) and condition(s) as to the Pre-release Software, but only to the extent necessary to resolve the conflict. Licensee acknowledges that the Pre-release Software does not represent the final product from the Licensor, and may contain bugs, errors, and other problems that could cause system or other failures and data loss. Consequently, the Licensor disclaims any warranty or liability obligations to Licensee of any kind whatsoever. IN APPLICABLE JURISDICTIONS WHERE LIABILITY CANNOT BE SO EXCLUDED FOR PRE-RELEASE SOFTWARE, BUT MAY BE LIMITED, the Licensor LIABILITY, AND THAT OF ITS SUPPLIERS, SHALL BE LIMITED TO THE LESSER OF THE AMOUNT PAID BY LICENSEE AND FIFTY UNITED STATES DOLLARS (U.S. \$50.00). THE FOREGOING LIMITATION OF LIABILITY APPLIES TO ANY VERSION OF THE LICENSED SOFTWARE, PRE-RELEASE OR POST-RELEASE. Licensee acknowledges that the Licensor has not promised or guaranteed to Licensee that the Pre-release Software will be announced or made available to anyone in the future, and that the Licensor has no express or implied obligation to Licensee to announce or introduce the Pre-release Software. The Licensor may decide not to introduce a product similar to, or compatible with, the Pre-release Software. Accordingly, Licensee acknowledges that any research or development that Licensee performs regarding the Pre-release Software, or any product associated with the Pre-release Software, is done entirely at Licensee's own risk. During the term of this EULA, if requested by the Licensor, Licensee will provide feedback to the Licensor regarding testing and use of the Pre-release Software, including error or bug reports. If Licensee has been provided the Pre-release Software pursuant to a separate written agreement, then Licensee's use of the Pre-release Software is also governed by that agreement. Notwithstanding anything in this EULA to the contrary, if Licensee is located outside the United States, Licensee will return or destroy all unreleased versions of the Pre-release Software within 30 days of the completion of Licensee's testing of the Pre-release Software if that date is earlier than the date scheduled for the Licensor first commercial shipment of the publicly released (commercial) Software. Survival of Disclaimers The exclusions of warranties, indemnification obligations and liability limitations shall survive the termination of this EULA, however caused; but this survival shall not imply or create any continued right to use the Licensed Software after termination of this EULA. Export Rules Licensee shall not ship, transfer, or export Licensed Software into any country or use Licensed Software in any manner prohibited by the United States Export Administration Act or any other export laws, restrictions, or regulations applicable to the Licensee (collectively the "Export Laws") If the Licensed Software is identified as export controlled items under the Export Laws, Licensee represents and warrants that Licensee, and Licensee's employees who will use the Licensed Software are not a citizen, or otherwise located within, an nation embargoed by the United States (including without limitation: Iran, Syria, Sudan, Cuba, and North Korea), and that Licensee, and Licensee's employees who will use the Licensed Software, are not otherwise prohibited under the Export Laws from receiving the Software. All rights to use the Licensed Software are granted on condition that Licensee complies with the Export Laws, and all such rights are forfeited if Licensee fails to comply with the Export Laws. Governing Law This EULA is subject to, and will be governed by and construed in accordance with the substantive laws in force of the country of Germany whose courts shall have exclusive jurisdiction over disputes arising hereunder. Licensor Address pdfforge GmbH is a company having its principal place of business at Meßberg 4, 20095 Hamburg, Germany. Intellectual Property Ownership The Licensed Software and any authorized copies that Licensee makes are the intellectual property of, and are owned by, the Licensor, and by third parties whose intellectual property has been licensed by the Licensor. The structure, organization, and code of the Licensed Software are the valuable trade secrets and confidential information of the Licensor and such third parties. The Licensed Software is protected by law, including without limitation, the copyright laws of the United States and other countries, and by international treaty provisions. Except as expressly provided in this EULA, Licensee is not granted any intellectual property rights in the Licensed Software. Licensee may not make or publish any public statement concerning the

Licensed Software or the Licensor without the prior express written consent of the Licensor. Reservation of Rights The Licensor reserves all rights not expressly granted to Licensee by this EULA. The rights granted to Licensee are limited to the Licensor intellectual property rights, and to the intellectual property rights of third parties licensed by the Licensor, and do not include any intellectual property rights. Complete Agreement This EULA constitutes the entire agreement between the Licensee and the Licensor relating to the Licensed Software, and it supersedes all prior or contemporaneous representations, discussions, undertakings, communications, agreements, arrangements, advertisements, and understandings regulating to the Licensed Software. Modification This EULA may only be modified or amended by a writing signed by an authorized officer of the Licensor. Severability If any provision of this EULA is determined by a court of competent jurisdiction to be contrary to law that provision will be enforced to the maximum extent permissible and the remaining provisions of this EULA will remain in full force and effect. Waiver No failure or delay by the Licensor in exercising its rights or remedies shall operate as a waiver unless made by specific written notice. No single or partial exercise of any right or remedy of the Licensor shall operate as a waiver or preclude any other, or further, exercise of that, or any other right, or remedy. Proof of Compliance Within 30 calendar days after request from the Licensor, or the Licensor authorized representative, Licensee will provide full documentation, and certify under penalty of perjury, that Licensee's use of any and all Licensed Software is in conformity with this EULA. Termination If Licensee breaches this EULA, and fails to cure any breach within 30 calendar days after request from the Licensor, or the Licensor authorized representative, the Licensor may terminate this EULA, whereupon all rights granted to Licensee shall immediately cease. Furthermore, upon termination, Licensee shall return to the Licensor all copies of the Licensed Software, or verify in writing that all copies of the Licensed Software have been destroyed.

GNU Affero General Public License Version 3, 19 November 2007 Preamble

The GNU Affero General Public License is a free, copyleft license for software and other kinds of works, specifically designed to ensure cooperation with the community in the case of network server software. The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, our General Public Licenses are intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users. When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things. Developers that use our General Public Licenses protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License which gives you legal permission to copy, distribute and/or modify the software. A secondary benefit of defending all users' freedom is that improvements made in alternate versions of the program, if they receive widespread use, become available for other developers to incorporate. Many developers of free software are heartened and encouraged by the resulting cooperation. However, in the case of software used on network servers, this result may fail to come about. The GNU General Public License permits making a modified version and letting the public access it on a server without ever releasing its source code to the public. The GNU Affero General Public License is designed specifically to ensure that, in such cases, the modified source code becomes available to the community. It requires the operator of a network server to provide the source code of the modified version running there to the users of that server. Therefore, public use of a modified version, on a publicly accessible server, gives the public access to the source code of the modified version. An older license, called the Affero General Public License and published by Affero, was designed to accomplish similar goals. This is a different license, not a version of the Affero GPL, but Affero has released a new version of the Affero GPL which permits relicensing under this license. The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS

0. Definitions.

"This License" refers to version 3 of the GNU Affero General Public License. "Copyright" also means copyright-like laws that apply to other kinds of works, such as semiconductor masks. "The Program" refers to any copyrightable work licensed under this License. Each licensee is addressed as "you". "Licensees" and "recipients" may be individuals or organizations. To "modify" a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a "modified version" of the earlier work or a work "based on" the earlier work. A "covered work" means either the unmodified Program or a work based on the Program. To "propagate" a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well. To "convey" a work means any kind of propagation that enables

other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying. An interactive user interface displays "Appropriate Legal Notices" to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2) tells the user that there is no warranty for the work (except to the extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.

1. Source Code.

The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work. A "Standard Interface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language. The "System Libraries" of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A "Major Component", in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it. The "Corresponding Source" for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control flow between those subprograms and other parts of the work. The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source. The Corresponding Source for a work in source code form is that same work.

2. Basic Permissions.

All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law. You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you. Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.

3. Protecting Users' Legal Rights From Anti-Circumvention Law.

No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures. When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's users, your or third parties' legal rights to forbid circumvention of technological measures.

4. Conveying Verbatim Copies.

You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice; keep intact all notices stating that this License and any non-permissive terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program. You may charge any price or no price for each copy that you convey, and you may offer support or warranty protection for a fee.

5. Conveying Modified Source Versions.

You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:

1. The work must carry prominent notices stating that you modified it, and giving a relevant date.
2. The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to "keep

intact all notices".

3. You must license the entire work, as a whole, under this License to anyone who comes into possession of a copy. This License will therefore apply, along with any applicable section 7 additional terms, to the whole of the work, and all its parts, regardless of how they are packaged. This License gives no permission to license the work in any other way, but it does not invalidate such permission if you have separately received it.

4. If the work has interactive user interfaces, each must display Appropriate Legal Notices; however, if the Program has interactive interfaces that do not display Appropriate Legal Notices, your work need not make them do so.

A compilation of a covered work with other separate and independent works, which are not by their nature extensions of the covered work, and which are not combined with it such as to form a larger program, in or on a volume of a storage or distribution medium, is called an "aggregate" if the compilation and its resulting copyright are not used to limit the access or legal rights of the compilation's users beyond what the individual works permit. Inclusion of a covered work in an aggregate does not cause this License to apply to the other parts of the aggregate.

6. Conveying Non-Source Forms.

You may convey a covered work in object code form under the terms of sections 4 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License, in one of these ways:

1. Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by the Corresponding Source fixed on a durable physical medium customarily used for software interchange.

2. Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by a written offer, valid for at least three years and valid for as long as you offer spare parts or customer support for that product model, to give anyone who possesses the object code either (1) a copy of the Corresponding Source for all the software in the product that is covered by this License, on a durable physical medium customarily used for software interchange, for a price no more than your reasonable cost of physically performing this conveying of source, or (2) access to copy the Corresponding Source from a network server at no charge.

3. Convey individual copies of the object code with a copy of the written offer to provide the Corresponding Source. This alternative is allowed only occasionally and noncommercially, and only if you received the object code with such an offer, in accord with subsection 6b.

4. Convey the object code by offering access from a designated place (gratis or for a charge), and offer equivalent access to the Corresponding Source in the same way through the same place at no further charge. You need not require recipients to copy the Corresponding Source along with the object code. If the place to copy the object code is a network server, the Corresponding Source may be on a different server (operated by you or a third party) that supports equivalent copying facilities, provided you maintain clear directions next to the object code saying where to find the Corresponding Source. Regardless of what server hosts the Corresponding Source, you remain obligated to ensure that it is available for as long as needed to satisfy these requirements.

5. Convey the object code using peer-to-peer transmission, provided you inform other peers where the object code and Corresponding Source of the work are being offered to the general public at no charge under subsection 6d.

A separable portion of the object code, whose source code is excluded from the Corresponding Source as a System Library, need not be included in conveying the object code work. A "User Product" is either (1) a "consumer product", which means any tangible personal property which is normally used for personal, family, or household purposes, or (2) anything designed or sold for incorporation into a dwelling. In determining whether a product is a consumer product, doubtful cases shall be resolved in favor of coverage. For a particular product received by a particular user, "normally used" refers to a typical or common use of that class of product, regardless of the status of the particular user or of the way in which the particular user actually uses, or expects or is expected to use, the product. A product is a consumer product regardless of whether the product has substantial commercial, industrial or non-consumer uses, unless such uses represent the only significant mode of use of the product. "Installation Information" for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. The information must suffice to ensure that the continued functioning of the modified object code is in no case prevented or interfered with solely because modification has been made. If you convey an object code work under this section in, or with, or specifically for use in, a User Product, and the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is characterized), the Corresponding Source conveyed under this section must be accompanied by the Installation Information. But this requirement does not apply if neither you nor any third party retains the ability to install modified object code on the User Product (for example, the work has been installed in ROM). The requirement to provide Installation Information does not include a requirement to continue to provide support service, warranty, or updates for a work that has been modified or installed by the recipient, or for the User Product in which it has been modified or installed. Access to a network may be denied when the

modification itself materially and adversely affects the operation of the network or violates the rules and protocols for communication across the network. Corresponding Source conveyed, and Installation Information provided, in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.

7. Additional Terms.

"Additional permissions" are terms that supplement the terms of this License by making exceptions from one or more of its conditions. Additional permissions that are applicable to the entire Program shall be treated as though they were included in this License, to the extent that they are valid under applicable law. If additional permissions apply only to part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions. When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission.

Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:

1. Disclaiming warranty or limiting liability differently from the terms of sections 15 and 16 of this License; or
2. Requiring preservation of specified reasonable legal notices or author attributions in that material or in the Appropriate Legal Notices displayed by works containing it; or
3. Prohibiting misrepresentation of the origin of that material, or requiring that modified versions of such material be marked in reasonable ways as different from the original version; or
4. Limiting the use for publicity purposes of names of licensors or authors of the material; or
5. Declining to grant rights under trademark law for use of some trade names, trademarks, or service marks; or
6. Requiring indemnification of licensors and authors of that material by anyone who conveys the material (or modified versions of it) with contractual assumptions of liability to the recipient, for any liability that these contractual assumptions directly impose on those licensors and authors.

All other non-permissive additional terms are considered "further restrictions" within the meaning of section 10. If the Program as you received it, or any part of it, contains a notice stating that it is governed by this License along with a term that is a further restriction, you may remove that term. If a license document contains a further restriction but permits relicensing or conveying under this License, you may add to a covered work material governed by the terms of that license document, provided that the further restriction does not survive such relicensing or conveying. If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating where to find the applicable terms. Additional terms, permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions; the above requirements apply either way.

8. Termination.

You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11). However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation. Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright holder, and you cure the violation prior to 30 days after your receipt of the notice. Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10.

9. Acceptance Not Required for Having Copies.

You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.

10. Automatic Licensing of Downstream Recipients.

Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License. An "entity transaction" is a transaction transferring control of an organization, or substantially all assets of one, or subdividing

an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts. You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it.

11. Patents.

A "contributor" is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's "contributor version". A contributor's "essential patent claims" are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, "control" includes the right to grant patent sublicenses in a manner consistent with the requirements of this License. Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version. In the following three paragraphs, a "patent license" is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a patent or covenant not to sue for patent infringement). To "grant" such a patent license to a party means to make such an agreement or commitment not to enforce a patent against the party. If you convey a covered work, knowingly relying on a patent license, and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent license to downstream recipients. "Knowingly relying" means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient's use of the covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid. If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a covered work, and grant a patent license to some of the parties receiving the covered work authorizing them to use, propagate, modify or convey a specific copy of the covered work, then the patent license you grant is automatically extended to all recipients of the covered work and works based on it. A patent license is "discriminatory" if it does not include within the scope of its coverage, prohibits the exercise of, or is conditioned on the non-exercise of one or more of the rights that are specifically granted under this License. You may not convey a covered work if you are a party to an arrangement with a third party that is in the business of distributing software, under which you make payment to the third party based on the extent of your activity of conveying the work, and under which the third party grants, to any of the parties who would receive the covered work from you, a discriminatory patent license (a) in connection with copies of the covered work conveyed by you (or copies made from those copies), or (b) primarily for and in connection with specific products or compilations that contain the covered work, unless you entered into that arrangement, or that patent license was granted, prior to 28 March 2007. Nothing in this License shall be construed as excluding or limiting any implied license or other defenses to infringement that may otherwise be available to you under applicable patent law.

12. No Surrender of Others' Freedom.

If conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a covered work so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not convey it at all. For example, if you agree to terms that obligate you to collect a royalty for further conveying from those to whom you convey the Program, the only way you could satisfy both those terms and this License would be to refrain entirely from conveying the Program.

13. Remote Network Interaction; Use with the GNU General Public License.

Notwithstanding any other provision of this License, if you modify the Program, your modified version must prominently offer all users interacting with it remotely through a computer network (if your version supports such interaction) an opportunity to receive the Corresponding Source of your version by providing access to the Corresponding Source from a network server at no charge, through some standard or customary means of facilitating copying of software. This Corresponding Source shall include the Corresponding Source for any work covered by version 3 of the GNU General Public License that is incorporated pursuant to the following paragraph. Notwithstanding any other provision of this License, you have permission to link or combine any covered work with a

work licensed under version 3 of the GNU General Public License into a single combined work, and to convey the resulting work. The terms of this License will continue to apply to the part which is the covered work, but the work with which it is combined will remain governed by version 3 of the GNU General Public License.

14. Revised Versions of this License.

The Free Software Foundation may publish revised and/or new versions of the GNU Affero General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Program specifies that a certain numbered version of the GNU Affero General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that numbered version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of the GNU Affero General Public License, you may choose any version ever published by the Free Software Foundation. If the Program specifies that a proxy can decide which future versions of the GNU Affero General Public License can be used, that proxy's public statement of acceptance of a version permanently authorizes you to choose that version for the Program. Later license versions may give you additional or different permissions. However, no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version.

15. Disclaimer of Warranty.

THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. Limitation of Liability.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

17. Interpretation of Sections 15 and 16.

If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Program, unless a warranty or assumption of liability accompanies a copy of the Program in return for a fee.

END OF TERMS AND CONDITIONS

ZipMaster 1.72 GNU General Public License v2.0

Copyright (C) 2012 Aaron Reeves

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) 19yy name of author Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type 'show w'.

This is free software, and you are welcome to redistribute it under certain conditions; type 'show c' for details.

The hypothetical commands 'show w' and 'show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than

'show w' and 'show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program 'Gnomovision' (which makes passes at compilers) written by James Hacker.

, 1 April 1989

Ty Coon, President of Vice
