## X-dock OS

---

Dräger acknowledges the importance of open source and the Open Source Community. We make use of FOSS during the development as well as in our products. Open source software allows us to create better products and ultimately provide better service for our customers worldwide.

We further also thank all other developers of every Open Source Project included in this product.

We would like to thank the following Open Source Projects:

### BusyBox v1.23

This product includes software developed by the BusyBox Team. (<https://busybox.net/>)

### Bzip2 1.0.8

This product includes Software Developed by Julian Seward ([jseward@acm.org](mailto:jseward@acm.org)) (<https://sourceware.org/>)

### OpenSSL v1.0.2d

This product includes software developed by the OpenSSL Project for use in the OpenSSL Toolkit. (<http://www.openssl.org/>)

### Util Linux v2.26.2

This product includes software developed by the University of California, Berkeley and its contributors.
