Open Source Licences

Components of the software used in this Product are insofar as listed below free and open source software licensed under the applicable terms. The copyright holders usually disclaim any warranties and exclude any liability for their free and open source software.

Where stipulated that a source code is to be made available you can find it either online or upon request, we will supply the source code of these free and open source software components on a data medium.

In case certain licenses give you the option to exchange the associated software element such change is not prohibited by us. However, given the nature of our products, their registration and security requirements editing the software of certain products might be depending on you contacting us. Be advised that the software in its specific set up may be (and often is) part of the product registration which is the basis for the legal use of the product. When changing the software of such products you become the manufacturer of the new product with all associated responsibilities and liabilities. This might e.g. entail product liability, new registrations including declaration of conformity, market and post market surveillance, update and cybersecurity monitoring and others. Additionally, we don't assume any liability with regards to the changed software and its implications to the functionality and security of the software or the product as a whole. We further reserve the right to and might be obligated to inform the appropriate authorities about such changed products in the market. The product must be clearly identified as changed and our labels and other manufacturer indications must be removed.

Please observe any additional documents associated with this product (e.g. acknowledgements, notices, additional license documents)

Table of Contents

1	VxWorks	3
2	Zint backend 2.4.4 BSD-3-Clause	3
3	Acknowledgement	3

1 VxWorks

Wind River VxWorks includes several Open Source licenses. See attached .pdf files. Those also prevail.

2 Zint backend 2.4.4 BSD-3-Clause

ZINT was originally developed by Robin Stuart and licensed under the terms of the GPL (Gnu Public License). In 2013 Robin Stuart and all developers that contributed to the code agreed to change the license to a less restrictive one (see ZINT mailing list of May 2013 for related mails) under the following conditions:

- the names of original copyright holder Robin Stuart and contributors are not removed, neither from sources nor from the manual
- the documentation is done in British English (as Robin said: "Oh, and please don't replace the word "colour" with "color" in the documentation - that really annoys me!")

Change to BSD-license is done for backend and therefore for ZINT shared library only, for the frontends and Qt4 backend the GPL is still valid. Since BSD-license is GPL-compatible this gives the possibility to include ZINT library in own products or link against it from own software.

3 Acknowledgement

We further also thank all other developers of every Open Source Project included in this product.
