

Supplement

Software Bill of Materials

License agreements for Open Source Software

dc-portal

Supplement to the instructions for use

This supplement is valid for the following applications and software versions:

dc-portal

Version: **1.2.154**

Components of the software used in this Product are insofar as listed below free and open source software licensed under the applicable terms. The copyright holders usually disclaim any warranties and exclude any liability for their free and open source software.

Where stipulated that a source code is to be made available you can find it either online or upon request, we will supply the source code of these free and open source software components on a data medium. In case certain licenses give you the option to exchange the associated software element such change is not prohibited by us. However, given the nature of our products, their registration and security requirements editing the software of certain products might be depending on you contacting us. Be advised that the software in its specific set up may be (and often is) part of the product registration which is the basis for the legal use of the product. When changing the software of such products you become the manufacturer of the new product with all associated responsibilities and liabilities. This might e.g. entail product liability, new registrations including declaration of conformity, market and post market surveillance, update and cybersecurity monitoring and others. Additionally, we don't assume any liability with regards to the changed software and its implications to the functionality and security of the software or the product as a whole.

We further reserve the right to and might be obligated to inform the appropriate authorities about such changed products in the market. The product must be clearly identified as changed and our labels and other manufacturer indications must be removed. Please observe any additional documents associated with this product (e.g. acknowledgements, notices, additional license documents).

Apache License Version 2.0, January 2004 ===== http://www.apache.org/licenses/ TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION 1. Definitions. "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions: a. You must give any other recipients of the Work or Derivative Works a copy of this License; and b. You must cause any modified files to carry prominent notices stating that You changed the files; and c. You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and d. If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. END OF TERMS AND CONDITIONS APPENDIX: How to apply the Apache License to your work To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets [] replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives. Copyright [yyyy] [name of copyright owner] Licensed under the Apache License, Version 2.0 (the "License"); you may not use this file except in compliance with the License. You may obtain a copy of the License at http://www.apache.org/licenses/LICENSE-2.0 Unless required by applicable law or agreed to in writing, software distributed under the License is distributed on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied. See the License for the specific language governing permissions and limitations under the License.

Source Public License - v.1.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT. 1. DEFINITIONS "Contribution" means: a) in the case of the initial Contributor, the initial code and documentation distributed under this Agreement, and b) in the case of each subsequent Contributor: i) changes to the Program, and ii) additions to the Program, where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution originates from a Contributor if it was added to the Program by such Contributor either directly, or indirectly via a third party. b) "Contributor" means any person or entity that distributes the Program. "Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program. "Program" means the Contributions distributed in accordance with this Agreement. "Recipient" means anyone who receives the Program under this Agreement, including all Contributors. 2. GRANT OF RIGHTS a) Subject to the terms of this Agreement, each Contributor hereby grants to Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form, for any purpose, and without restriction in the medium in which the material in the Contribution is embodied. b) Any such license shall be granted on the same terms and conditions as the license granted by the Contributor to you. c) Any source code, object code or data file in which a Contribution is initially distributed by a Contributor shall be made available in source code form: i) if it is a work of authorship, as soon as it is practicable, and in any event, not later than 90 days after the initial distribution, and ii) in any other case, as soon as it is practicable, and in any event, not later than 60 days after the initial distribution. The patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder. c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or other rights that may be infringed by the Contribution or the combination of the Contribution and the Program. d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement. 3. REQUIREMENTS A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that: a) it complies with the terms and conditions of this Agreement; and b) its license agreement: i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title, non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose; ii) effectively excludes on behalf of all Contributors all liability for damages; iii) requires Recipient to accept only a single agreement for the entire program package; and iv) states that it would like Recipient to have the Program available to it in source code form. a) If the Program is available to Recipient in source code form, Recipient must: i) make the source code of the Program available to others under the same terms, notice and disclaimer of warranties as Recipient is to make available to it in source code form; ii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and iii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and iv) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and v) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and vi) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and vii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and viii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and ix) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and x) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xi) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xiii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xiv) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xv) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xvi) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xvii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xviii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xix) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xx) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxi) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxiii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxiv) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxv) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxvi) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxvii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxviii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxix) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxx) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxxi) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxxii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxxiii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxxiv) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxxv) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxxvi) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxxvii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxxviii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xxxix) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xl) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xli) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xlii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xliii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xliv) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xlv) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xlvi) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xlvii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xlviii) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xlvix) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xlvx) make the source code of the Program available to others in a machine-readable format, preferably in source code form, and xlvxi) make the source code of the GNU Lesser General Public License Version 2.1 Only

This document is the GNU Lesser General Public License, Version 2.1, published by the Free Software Foundation, Inc. 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA. Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed. [This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The GNU Lesser General Public License (LGPL) is a free license that allows you to share and share alike. It is designed to be a more liberal license than the GNU General Public License (GPL). This license, the Lesser General Public License, applies to some specially designated software packages—typically libraries—of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below. (If we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to share and share alike.)

When you distribute (or authorize others to distribute) a program (or a library) under this license, you are giving them the right to copy, modify, and redistribute the program (or library) under the same license. To protect your rights, we need to make reservations that forbid distributors to deny you these rights or to assert that you surrender them. These rights are the rights to copy, modify, and redistribute the program (or library) under the same license. For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights. We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you the right to copy, modify, and redistribute the library under the same license. This license is designed to make sure that you have the freedom to share and share alike. We know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others. Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license. Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license to protect your rights in free software. We want to make sure that you have the freedom to share and share alike, and that you are not forced to pay a large fee to use the software. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library. We call this license the "Lesser" General Public License because it does less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances. For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. Without this provision, users would have no choice but to replace the library with another. This would not encourage such standards, since the non-free programs would be unable to compete on an even basis. Another reason to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the GNU operating system, as well as its variant, the GNU/Linux operating system. Although the Lesser General Public License is less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the power to change the program. The user is provided the source code of the particular library, and the program that is linked to it. The user can then change the program and the library, and the program can be compiled and linked with the library, whereas the latter must be compiled with the library in order to run. TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder with the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each license is addressed as "you". A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables. The "Library", below, refers to any such software library or work which has been released under this License. The "work", below, refers to any program or other object code (including source code) which is linked with the Library to form an executable. Hereinafter, translation is included without limitation in the term "modification". "Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library. Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does. To protect your rights, we have taken certain precautions to ensure that you can always have access to the source code of the library and the program that uses the library. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions: a) The modified work must itself be a software library. b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change. c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License. d) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. e) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. f) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. g) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. h) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. i) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. j) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. k) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. l) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. m) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. n) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. o) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. p) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. q) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. r) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. s) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. t) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. u) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. v) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. w) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. x) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. y) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. z) You must cause the modified work to carry a notice that is placed by the copyright holder or other authorized party saying it may be distributed under the terms of this License. 3. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 4. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 5. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 6. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 7. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 8. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 9. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 10. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 11. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 12. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 13. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 14. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 15. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 16. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 17. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 18. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 19. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 20. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 21. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 22. You may copy and distribute the Library as part of a larger program, provided that you do not remove or alter any notices that refer to this License and to the absence of any warranty, and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you

OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. END OF TERMS AND CONDITIONS How to Apply These Terms to Your New Libraries ----- If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License). To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty, and each file should have at least the "copyright" line and a pointer to where the full notice is found, one line to give the library's name and an idea of what it does. Copyright (C) year name of author This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version. This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more details. You should have received a copy of the GNU Lesser General Public License along with this library; if not, write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA Also add information on how to contact you by electronic and paper mail. You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a sample, alter the names. Yoyodyne, Inc., hereby disclaims all copyright interest in the library 'Frob' (a library for tweaking knobs) written by James Random Hacker. Signature of Ty Coon, 1 April 1990 Ty Coon, President of Vice That's all there is to it!
