Apache License Version 2.0, January 2004 ===== http://www.apache.org/licenses/ TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION 1. Definitions. "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, header files, makefiles, and configuration files (统称"Derivative Works"), subject to Section 4, and may further include other works for which the text of the Work is included in its source form. This definition includes the work as originally provided by the copyright owner and derivative works based on or derived from the Work that are created under the circumstances described below. This definition does not include modifications or additions to the Work or Derivative Works thereof, that are not submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity that has contributed to the Work by providing any code, text, data, or other material under this license, even if not submitted in writing in accordance with the conditions of this license, provided it is not a contribution as defined above. You may be a person, a business entity, or other organization that contributes to the Work directly or indirectly, without assuming any name or legal entity of your own, and subject to the following provisions. 2. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Object form, 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions: a. You must give any other recipients of the Work or Derivative Works a copy of this License; and b. You must cause any modified files to carry prominent notices stating that You changed the files; and c. You must retain, in the Source form of any Derivative Works that You You distribute, all copyright, license, trademark, and attribution notices from the Work, and that you do not delete these notices, or require that third party recipients do so, unless required by applicable law (such as by delibrately and grossly negligent acts) or agreed to in writing. shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may accept additional warranty or liability for a larger share of this Work than the original Contributor did when you received it. 10. Limitation on Your Rights. You may not offer financial incentives for others to use, modify, or redistribute the Work, and You may not charge fees for the Work or Derivative Works except as provided in this section for Source and Object form. 11. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, a Contributor provides the Work as "AS IS", WITHOUT WARRANTY OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages. 9. You may not offer or impose any terms on any Covered Software in Source Code form that alters or restricts the applicable version of this License or the recipients' rights hereunder. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, you may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear that any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or any Contributor as a result of Your offering of such warranty, support, indemnity or liability obligations. You may not impose any additional obligations on Contributors or Initial Developers by requiring them to accept terms of a license of Your choice, which may contain terms different from the terms of this License, provided that You are in compliance with the terms of this License and that the license for the Executable form does not attempt to limit or alter the recipient's rights in the Source Code form from the rights set forth in this License. If You distribute the Covered Software in Executable form under a different license, You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or Contributor. You hereby agree to indemnify the Initial Developer and every Contributor as a result of any such terms You offer. 3.6. Larger Works. You may create a Larger Work by combining Covered Software with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Software. 4. Versions of the License. 4.1. New Versions. Oracle is the initial license steward and may publish revised and/or new versions of this License from time to time. Each version will be given a distinguishing version number. Except as provided in Section 4.3, no one other than the license steward has the right to modify this License. 4.2. Effect of New Versions. You may always choose to use, distribute or otherwise make available any subsequent version of the License under which You are permitted to do so. You may use, distribute or otherwise make available any subsequent version of the Original Software produced by Initial Developers and/or Contributors as a result of the terms of this License. 4.3. Disclaimers. You may not use, distribute or otherwise make available any subsequent version of the License published by the license steward. 4.3. Modified Versions. When You are an Initial Developer and You want to create a new license for Your Original Software, You may create and use a modified version of this License if You: (a) rename the license and remove any references to the name of the license steward (except to note that the license differs from this License); and (b) otherwise make it clear that the license contains terms which differ from this License. 5. DISCLAIMER OF WARRANTY. COVERED SOFTWARE IS PROVIDED "AS IS" BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED SOFTWARE IS FREE OF DEFECTS, MERCHANTABILITY, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED SOFTWARE IS WITH YOU. SHOULD ANY COVERED SOFTWARE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THE DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED SOFTWARE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER. 6. TERMINATION. 6.1. The License and the rights granted hereunder will terminate automatically if You fail to comply with any term or condition of this License. 6.2. The License and the rights granted hereunder will terminate immediately if You commence a legal proceeding against an Initial Developer or Contributor against whom You assert a claim (referred to as "Participant") alleging that the Participant Software (meaning the Contributor Version where the Participant is a Contributor or the Original Software where the Participant is the Initial Developer) directly or indirectly infringes any patent, then any and all rights granted directly or indirectly to You by such Participant, the Initial Developer (if the Initial Developer is not the Participant) and all Contributors under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively and automatically at the expiration of such 60 day notice period, unless if within such 60 day period You withdraw Your claim with respect to the Participant Software against such Participant either unilaterally or pursuant to a written agreement with Participant. 6.3. If You assert a patent infringement claim against Participant alleging that the Participant Software directly or indirectly infringes any patent where such claim is resolved (such as by license or settlement) prior to the initiation of patent infringement litigation, then the reasonable value of the licenses granted by such Participant under Sections 2.1 or 2.2 shall be taken into account in determining the amount or value of any payment or license. 6.4. In the event of termination under Sections 6.1 or 6.2 above, all end user licenses that have been validly granted by You or any distributor hereunder prior to termination (excluding licenses granted by an Initial Developer or Contributor) shall terminate immediately. 6.5. Eclipse Public License - v 2.0 ======
THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS ----- "Contribution" means: a) in the case of the initial Contributor, the initial content Distributed under this Agreement; and b) in the case of each subsequent Contributor, i) changes to the Program, and ii) additions to the Program; where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution "originates" from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the Program that are not Modified Works. "Contributor" means any person or entity that distributes the Program. "Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program. "Program" means the Contributions Distributed in accordance with this Agreement. "Recipient" means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors. "Derivative Works" shall mean any work, whether in Source Code or other form, that is based on (or derived from) the Program and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. "Modified Works" shall mean any work in Source Code or other form that results from an addition to, deletion from, or modification of the contents of the Program, including, for purposes of clarity any new file that contains code that cannot be directly linked to the original source code. "Non-free" means that the Program is not free software, as defined below. "Source Code" means the preferred form of the Program for making modifications, including but not limited to software source code, documentation source, and configuration files. "Distribute" means the act of a) disclosing or b) making available in any manner that enables the transfer of a copy of Source Code" means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files. "Secondary License" means either the GNU General Public License, version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor.

GRANT OF RIGHTS ----- a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder. c) Recipient understands that although each Contributor grants the licenses to Recipient as set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any third party assert against Recipient relating to the right, the existence of which may be unknown or unassessed, that the Program infringes such party's patent or other intellectual property rights. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program. d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement. e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3). 3. REQUIREMENTS ----- 3.1. If a Contributor Distributes the Program in any form, then: a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner or through a medium customarily used for software exchange; and b) the Contributor may Distribute the Program under a license different than this Agreement, provided that such license: i) effectively disclaims all warranties and conditions, express and implied, including warranties or conditions of title and of non-infringement, for any part of the Program; ii) effectively excludes from the warranty and conditions in this Agreement all liability for damages, including consequential damages (including lost profits); iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and iv) does not affect any subsequent distribution of the Program by any party to under a license that satisfies the requirements of this section 3.2. When the Program is Distributed as Source Code: a) it must be made available under this Agreement, or if the Program is) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and b) a copy of this Agreement must be included with each copy of the Program. 3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ("notices") contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices. 4. COMMERCIAL DISTRIBUTION ----- Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to indemnify and hold the other Contributors harmless from any liability arising from acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control the defense and/or settlement of such claim; X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages. 5. NO WARRANTY ----- EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR IMPLIED INCLUDING ANY LIMITATIONS, WARRANTIES OR CONDITIONS OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE. EACH PARTIES' SOLE REMEDY FOR A CLAIM RELATED TO THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 6. DISCLAIMER OF LIABILITY ----- EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 7. GENERAL ----- If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable. A Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s) (and then such Recipient's sole remedy under Section 2(b) shall terminate on the date such entity is first sued). If a court determines that your patent(s) are valid and enforceable, and you then sue a Recipient for patent infringement, such Recipient's rights under this Agreement terminate. Recipient agrees not to use or distribute the Program as soon as reasonably practicable, however, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive. Everyone is permitted to copy and distribute copies of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be Distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to Distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and (b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. Recipient agrees to indemnify the other parties to this Agreement for any loss, damage or expense resulting from any claim, suit, action, or proceeding, including reasonable attorney fees, asserted against them by a third party as a result of Recipient's use of the Program. This Source Code may also be made available under the following Secondary Licenses when the conditions for such availability set forth in the Eclipse Public License, v. 2.0 are satisfied: (name/licenses), version(s), and exceptions or additional permissions here."
 * Similarly including a copy of this Agreement, including this Exhibit A is not sufficient to license the Source Code under Secondary Licenses. If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice. You may add additional accurate notices of copyright ownership.

GNU Classpath License ====== The GNU General Public License (GPL) ----- Version 2, June 1991 ----- Copyright (C) 1989, 1991 Free Software Foundation, Inc. 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed. Preamble The Licenses for most software are designed to take away your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too. When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things. We want to make sure that everyone understands that there is no warranty for these free software packages. For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they know their rights. We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software. Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that they have not got the original, so that any problems introduced by others will not reflect on the original authors' reputations. Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all. The precise terms and conditions for copying, distribution and modification follow. TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION 0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law; that is to say, a work based on the Program is derived from it (or is a "derivative work" of it) if it contains parts extracted from or based on the Program, either verbatim or with modifications, and either copied directly or in some other form; this applies to the source code of the Program as well as to binary form. This License applies to the source code for works based on the Program, but not to any work that is itself distributed in binary form. (Independent of having been made by running the Program.) Whether that is true depends on what the Program does. 1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Sections 1 and 2 above provided that you also do one of the following: a) Accompany it with the complete corresponding machine-readable source code in the same form, so that the recipient can easily apply further changes; or b) Provide a written offer, valid for at least three years, to give any third party a refund of their money if the work does not normally run more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 or 2 above; or a medium customarily used for software interchange; or c) Accompany it with the written information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.) 4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, or distribute the Program is void, and will automatically terminate your rights under this License. If you receive a copy of the Program, even if it contains provisions that permit you to redistribute it, you may only do so under these terms or conditions. 5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License. 7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, if you do not distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from redistributing the Program. If that is the case, do not distribute the Program under this License, and if you have already done so, stop doing so immediately. If you are in doubt, contact us for permission. These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License and its terms do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees (independent of having been made by running the Program) are limited on what the Program does. 3. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 2. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Sections 1 and 2 above provided that you also do one of the following: a) Accompany it with the complete corresponding machine-readable source code in the same form, so that the recipient can easily apply further changes; or b) Provide a written offer, valid for at least three years, to give any third party a refund of their money if the work does not normally run more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 or 2 above; or a medium customarily used for software interchange; or c) Accompany it with the written information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.) 4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, or distribute the Program is void, and will automatically terminate your rights under this License. If you receive a copy of the Program, even if it contains provisions that permit you to redistribute it, you may only do so under these terms or conditions. 5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License. 7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, if you do not distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from redistributing the Program. If that is the case, do not distribute the Program under this License, and if you have already done so, stop doing so immediately. If you are in doubt, contact us for permission. These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License and its terms do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees (independent of having been made by running the Program) are limited on what the Program does. 3. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. If, as a consequence of a court judgment or allegation of patent infringement or

(Hereinafter, "translation is included without limitation in the term "modification") "Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library. Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does. 1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty, keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions: a) The modified work must itself be a software library. b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change. c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License. d) If a factotum of the modified work is derived from the work, then the factotum must be an aggregate of the two. Otherwise, if the modified work is a separate work based on the Library, the user must not call it a "library". e) You must cause the user to receive the library through the same means you chose to receive it. f) You must cause the user to willfully accept the terms of this License. 3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License. To do this, you must alter all the notices to refer to the ordinary GNU General Public License, and to make clear that no reference is made to the specific version number of the ordinary GNU General Public License. (For example, "This library is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License version 2, or (at your option) any later version") 4. You may copy and distribute a modified version of the Library under the terms of Sections 2 and 3 above, provided that you also meet all of these conditions: a) The modified version must prominently display the words "modified version" next to the words "GNU Library". b) You must cause the modified files to carry prominent notices stating that many of the files have been changed, and the date of the changes. c) You must cause the whole of the modified work to be licensed at no charge to all third parties under the terms of this License. d) If a factotum of the modified work is derived from the work, then the factotum must be an aggregate of the two. Otherwise, if the modified work is a separate work based on the Library, the user must not call it a "library". e) You must cause the user to receive the library through the same means you chose to receive it. f) You must cause the user to willfully accept the terms of this License. 5. A program that contains parts based on the Library, which is combined with other programs in a combined library, is called an "aggregate" if the source code for the other programs is not available for reference by a function or table in the aggregate. Thus, if you link the Library with a file containing a function that references the source code of the Library, the Library is considered part of an aggregate, and therefore covered by section 6. If you do not provide separate executables for your application and the Library, then this License applies to the whole of the work and to each part regardless of the nature of the interface used between the aggregate and the Library. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.) These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library. In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) in the volume of a storage or distribution medium does not bring the other work under the scope of this License. 3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License. To do this, you must alter all the notices to refer to the ordinary GNU General Public License, version 2, instead of this License. (If a newer version than version 2 of the ordinary GNU General Public License is published, then you may specify the new version of the ordinary GNU General Public License instead of this License. Do not make changes in any other section of the file except this one.) 4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1.2 and above on a medium customarily used for software interchange. If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code. 5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License. However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the Library". The executable is therefore covered by this License. This makes it possible to combine the Library with a proprietary program that uses the Library without requiring the user to recompile or relink to use the Library. Even though the source code is not derived from the Library, the work must still be covered by this License, because it contains the library even though the source code is not. This is especially significant if the work can be distributed without the Library or if the work itself is a library. The threshold for this to be true is not precisely defined. If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and simple inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.) Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself. 6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications. You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things: a) Accompany the work with the combined library, in a form suitable for linking with the work, in a medium customarily used for software interchange; or b) Accompany the work with the combined library, in a form suitable for linking with the work, on a medium customarily used for software interchange; or c) Supply equivalent access to copy, modify, sublicense, link with, or distribute the Library, as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.) b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with. c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution. d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place. e) Verify that the user has already received a copy of these materials or that you have already sent user a copy. For an executable, the required form of the "work that uses the Library" must include any data and library programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything more than the major components (compiler, kernel, operating system, library) contained in the original work, and accompanying library facilities, if any, that are directly intended for enabling动态链接 (dynamic linking) of the application when linked with the work. Such a combination will be considered an "aggregate" if the source code for the combined library is not covered by this License, and if the combined library itself is a work based on the Library, of the other library facilities is otherwise permitted, and provided that you do these two things: a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above. b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work. 8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance. 9. You are not required to accept this License, since you may not have signed it. However, nothing else grants you permission to modify or distribute the Library or its derivatives. These actions are prohibited by law if you do not accept this License. Therefore, by offering or distributing the work, you are agreeing to be bound by this license, and by using or otherwise distributing the work, you are agreeing to be bound by the terms of this license. 10. You, as the copyright holder for the work, may not offer restrictions beyond this License, other than those imposed on you by law. You may not sublicense the work with a different license. 11. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographic distribution limitation excluding those countries, so that distribution is permitted only in or among countries not subject to such restrictions. In such case, this License incorporates the limitation as if written in the body of this License. 12. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Library is specified a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation. 13. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the Free Software Foundation, Inc., to request a special permission, and follow the terms that that organization may specify. 14. In no event shall the copyright holders and/or other parties who contribute to the Library be held liable for any damages arising out of the use of the Library or the modification or derivative works that use the Library. THE LIBRARY IS PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION. 15. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OF THE LIBRARY (INCLUDING LOSS OF DATA OR BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE) EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 16. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION. 17. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OF THE LIBRARY (INCLUDING LOSS OF DATA OR BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE) EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 18. GNU LESSER GENERAL PUBLIC LICENSE ===== Version 3, 29 June 2007 Copyright (C) 2007 Free Software Foundation, Inc. <<http://fsf.org/>> Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed. This version of the GNU Lesser General Public License incorporates the terms and conditions of version 3 of the GNU General Public License, supplemented by the additional permissions listed below. 0. Additional Definitions. As used herein, "this License" refers to version 3 of the GNU Lesser General Public License, and the "GNU GPL" refers to version 3 of the GNU General Public License. "The Library" refers to a covered work governed by this License, other than an Application or a Combined Work as defined below. An "Application" is any work that makes use of an interface provided by the Library, but which is not otherwise based on the Library. Defining a subclass of a class defined by the Library is deemed a mode of using an interface provided by the Library. A "Combined Work" is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the "Linked Version". The "Minimal Corresponding Source" for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that are not derived from the Library. The "Corresponding Application Code" for a Combined Work means the object code and/or source code for the Combined Work, including any source code from the Library, exclusive of any material that does not contain a copyright notice that identifies the Library, and that is explicitly excluded from the scope of this license under section 3 and/or 4 of this License without being bound by section 3 of the GNU GPL. 2. Combining Modified Versions. If you modify a copy of the Library, and/or in your modifications, a facility refers to a function or data to be supplied by an Application that uses the facility still operates, and performs whatever part of its purpose remains meaningful, * a) under this License, provided that you make a good faith effort to ensure that, in the event an unmodified version does not supply the function or data, the facility still operates, and performs whatever part of its purpose remains meaningful, or * b) under this License, provided that you make a good faith effort to ensure that, if the unmodified material is not limited to numerical parameters, data structure layouts and accessors, or small macros, inline functions and templates (ten or fewer lines in length), you do both of the following: * a) Give prominent notice with each copy of the object code that the Library is used in it and that the Library and its use are covered by this License. * b) Accompany the object code with a copy of the GNU GPL and this license document. * c) For a Combined Work that displays copyright notices during execution, include the copyright notice for the Library among these notices, as well as a reference directing the user to the copies of the GNU GPL and this license document. * d) Do one of the following: * 0) Convey the Minimal Corresponding Source under the terms of this License, and the Corresponding Application Code in a form suitable for, and under terms that permit, the user to recombine or relink the Application with a modified version of the Linked Version, to produce a modified Combined Work, in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source. * 1) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (a) uses at run time a copy of the Library already present on the user's computer system, and (b) will operate properly with a modified version of the Library that is interface-compatible with the Linked Version. * e) Provide Installation Information, but only if you would otherwise be required to provide such information under section 6 of the GNU GPL, and only to the extent that such information is necessary to install and execute a modified version of the Combined Work produced by recombining or relinking the Application with a modified version of the Linked Version. (If you use option 4d1, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code.) If you use option 4d1, you must provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source. 5. Combined Libraries. You may place library facilities that are a work based on the Library side by side in a single library side-by-side with other library facilities that are not Applications and are not covered by this License, and/or in a combined library if the combined work is not itself a work based on the Library. 6. Combined Work. If you create a Combined Work under terms of your choice that take together all the permissions and restrictions of both the corresponding version of this License and of the other license(s), then this Combined Work may be distributed under the terms of the license(s). 7. Corresponding Source. Corresponding Source is available for self-modification when given to you under this License. If you modify a copy of the Library, and make corresponding changes to a corresponding object file, such file must contain your modifications (including those made to the Corresponding Source of any work which is a constituent of the Library), unless you have permission to do otherwise. 8. Installation Information. You must supply Installation Information for the Library if you convey the Library in object code or in a format that is designed to be distributed in binary form. You must supply Corresponding Source for the Library if you convey the Library in source code or in a format that is designed to be distributed in an岸可执行文件 (executable) form. You must supply Corresponding Source for the Library if you convey the Library in an岸可执行文件 (executable) form along with a copy of the object code of the Library. 9. Distribution. You may copy and distribute verbatim copies of this license document, but not change it, provided that you do not also change the text of the license. 10. License Headers. You may copy and distribute verbatim copies of this license document, but not change it, provided that you do not also change the text of the license. 11. No Warranty. The Free Software Foundation, Inc., will not be liable for damages caused by problems in the Library, or by modifications or combinations of the Library with other software, or by any use of the Library. 12. Limitation on Liability. In no event will the copyright holders and/or other parties who contribute to the Library be liable for any damages arising out of the use of the Library or the modification or derivative works that use the Library. 13. Inability to Ensure Numerical Accuracy. If the Corresponding Source is in a medium which cannot hold an exact representation of all integers, and you modify this License to permit numerically inaccurate floating-point or fixed-point representation of稟整数, then this License permits numerically inaccurate floating-point or fixed-point representation of稟整数. 14. Interpretation of Terms. If a court has to interpret any provision of this License that affects you, and the provision is unenforceable, that provision must be removed from the license, and the license otherwise remains in full force and effect. Some terms may be specifically set aside by your local law. 15. Termination. This License, like the GNU GPL, terminates automatically if you fail to comply with its terms. 16. Accepting this License. By installing, modifying or distributing a covered work, you indicate your acceptance of this license. 17. License Headers. Each file should have a header that displays the name of the copyright holder, the version of the license, and any conditions specific to that file. 18. Source Code. You must distribute the Corresponding Source of a work in object code form under the terms of sections 4 and 5, and, if available, in source code form under the terms of sections 4 and 5. 19. Documentation. You must supply Corresponding Source for all the documentation that refers to a work in object code form, including any associated interface definition files, source files for shared libraries and dynamically linked subprograms, and source code for all the tests and unit tests. 20. Contribution. You must supply Corresponding Source for any work that you have modified or added to the Original Work, or for any work that contains Corresponding Source contributed by others. 21. Corresponding Source for a Combined Work. If you convey a Combined Work under terms of a license that is incompatiable with the Corresponding Source License, you must supply Corresponding Source for the Combined Work in a format that allows the user to extract the Corresponding Source from the Combined Work, even if it is a岸可执行文件 (executable). 22. Distribution of Modified Versions. If you modify a copy of the Library, and make corresponding changes to a corresponding object file, such file must contain your modifications (including those made to the Corresponding Source of any work which is a constituent of the Library), unless you have permission to do otherwise. 24. Distribution of Combinations. If you convey a Combined Work under terms of your choice that take together all the permissions and restrictions of both the Corresponding Source License and of the other license(s), then this Combined Work may be distributed under the terms of the license(s). 25. Corresponding Source for a Combined Work. You must supply Corresponding Source for the Library if you convey the Library in an岸可执行文件 (executable) form along with a copy of the object code of the Library. 83. Distribution of Modified Versions. If you modify a copy of the Library, and make corresponding changes to a corresponding object file, such file must contain your modifications (including those made to the Corresponding Source of any work which is a constituent of the Library), unless you have permission to do otherwise. 84. Corresponding Source for a Combined Work. If you convey a Combined Work under terms of your choice that take together all the permissions and restrictions of both the Corresponding Source License and of the other license(s), then this Combined Work may be distributed under the terms of the license(s). 85. Corresponding Source for a Combined Work. If you convey a Combined Work under terms of a license that is incompatiable with the Corresponding Source License, you must supply Corresponding Source for the Combined Work in a format that allows the user to extract the Corresponding Source from the Combined Work, even if it is a岸可执行文件 (executable). 86. Distribution of License Headers. You must supply Corresponding Source for the Library if you convey the Library in object code or in a format that is designed to be distributed in binary form. expected to use the product. A product is a consumer product regardless of whether the product has substantial commercial, industrial or non-consumer uses, unless such uses represent the only significant mode of use of the product. "Installation Information" for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. This information must suffice to ensure that the continued functioning of the modified object code is in no case prevented or interfered with solely because modification has been made. If you convey an object code work under this section in, or with, or specifically for use in, a User Product, and the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is characterized), the Corresponding Source conveyed under this section must be accompanied by the Installation Information. But this requirement does not apply if neither you nor any third party retains the ability to install modified object code on the User Product (for example, the work has been installed in ROM). The requirement to provide Installation Information does not include a requirement to continue to provide support service, warranty, or updates for a work that has been modified or installed by the recipient, or for the User Product in which it has been modified or installed. Access to a network may be denied when the modification itself materially and adversely affects the operation of the network or violates the rules and protocols for communication across the network. Corresponding Source conveyed, and Installation Information provided, in accord with this section must be in a form that is publicly documented, and must implement the minimum requirements for rights and permissions to copy and/or redistribute source code changes made under this section when the original copyright holder does not require that the terms of this section be made exception from one or more of its conditions. Additional permissions may be applicable to the entire Program shall be treated as though they were included in this License, to the extent that they are valid under applicable law. If additional permissions apply only in part of the Program, that part may be used separately under those permissions, but the entire Program shall be treated as though they were included in this License to the extent that they are valid under applicable law. If additional permissions apply only in part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions. When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission. Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms: * a) Disclaiming warranty or limiting liability differently from the terms of sections 15 and 16 of this License; or * b) Requiring preservation of specified reasonable legal notices or author attributions in that material or in the Appropriate Legal Notices displayed by works containing it; or * c) Prohibiting misrepresentation of the origin of that material, or requiring that modified versions of such material be marked in a reasonably prominent way as different from the original version; or * d) Limiting the use for publicity purposes of names of licensors or authors of the material, or * e) Declining grants rights under trademark law for use of some trade names, trademarks, or service marks; or * f) Requiring indemnification of licensors and authors of that material by anyone who conveys the material or modified versions of it (if you convey the original work, then you may be required to do so); or * g) Limiting the terms of section 15 to permit grant of only those rights under this License that are valid under applicable law. If a license document contains a further restriction but permits relicensing or conveying under this License, you may add to a covered work material governed by the terms of that license document, provided that the further restriction does not survive such relicensing or conveying. If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating where to find the applicable terms. Additional terms, permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions; the above requirements apply either way. 8. Termination. You may not propagate modified a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11). However, if you cease all violation of this License, then your copyright holder will reinstate (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to receive notice of violation, or fails to cure the violation within 30 days after your receipt of the note. Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated or not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10. 9. Acceptance Not Required for Having Copies. You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you the right to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so. 10. Automatic Licensing of Downstream Recipients. Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License. An "entity transaction" is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagating or a covered work results from an entity transaction, each party to the transaction who receives a covered work along with a copy of this License, is entitled to receive the rights in the work from the original licensors according to the terms of this License, and all parties' rights are determined by reference to the original license, and not this License. If the predecessor has it or can get it with reasonable efforts, you may not impose any further restrictions on the exercise of the rights granted or affirmed under the License. For example, you may not impose a license fee, royalty or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it. 11. Patents. A "contributor" is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's "contributor version". A contributor's "essential patent claims" are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, "control" includes the right to grant patent sublicenses in a manner consistent with the requirements of this License. Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import, and otherwise run, modify and propagate the contents of its contributor version for any purpose. A "patent license" is an express agreement by a copyright holder to grant a patent against the party if you ever denominates, or otherwise makes available, the covered work or any portion of it in a way that causes the patent holder to become liable for any patent infringement. You may not propagate or convey a covered work so as to conflict with this provision of the License, if you are propagating or conveying the covered work under a single license that is, in fact, a combination of this License with another license. You may not propagate or convey the covered work or any part of it under a patent license granted by or on behalf of any other person; if you do so, you must: (a) retain all the rights and obligations granted to you under this License; and (b) prominently display the following disclaimer if the disclaimer does not fit reasonably well with the language used in the program: "This software includes or is packaged with an application which is covered by copyright. No patent license is granted by this disclaimer. If the software is modified by you, or if you repackage, link, embed, copy, display, perform, distribute, reproduce, modify, or otherwise create derivative works of the software, the conditions for doing so must be in accordance with the terms of the GNU General Public License, section 11, concerning distribution of derivative works. In addition, if the modified software is distributed under a different license, a prominent place must display a link to the different license." If the program does not specify that a certain number of versions of the GNU General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that numbered version or of any later version published by the Free Software Foundation. If the Program specifies that a proxy can decide which future versions of the GNU General Public License can be used, that proxy's public statement of acceptance of a version permanently authorizes you to choose that version for the Program. Later license versions may give you additional or different permissions. However, no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version. 15. Disclaimer of Warranty. THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT. THOSE FEATURES THAT ARE NOT EXPRESSLY STATED AS SUCH ARE PROVIDED "AS IS". THE SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT. YOU ASSUME THE COST OF ALL NECESSARY SERVICES (INCLUDING REPAIR OR CORRECTION) IN THE EVENT OF LOST DATA, IN NO EVENT SHALL THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS). EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 17. Interpretation of Sections 15 and 16. If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Program, unless a warranty or assumption of liability accompanies a copy of the Program in return for a fee. END OF TERMS AND CONDITIONS How to Apply These Terms to Your New Programs If you develop a new program, and you want it to be the most useful possible to the public, the best way to achieve this is to make it free software which everyone can redistribute and change. You do this by distributing it under this license. If you want to make modifications and give them away, you can do those things under the GNU General Public License, either version 3 of the License, or (at your option) any later version. This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation, either version 3 of the License, or (at your option) any later version. This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details. You should have received a copy of the GNU General Public License along with this program. If not, see <<http://www.gnu.org/licenses/>>. The GNU General Public License is provided "as is", without ABSOLUTELY ANY WARRANTY; for details type 'show w'. This is free software, and you are welcome to redistribute it under certain conditions; type 'show c' for details. The hypothetical commands 'show w' and 'show c' should show the appropriate parts of the General Public License. Of course, your program's commands might be different, for a GUI interface, you would use an "about box". You should also get your employer (if you work as a programmer) or school (if any, to sign a "copyright disclaimer" for the program, if necessary. For more information on this, and how to apply and follow the GNU GPL, see <<http://www.gnu.org/licenses/>>. The GNU General Public License does not permit incorporating your program into proprietary applications. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If that is what you want to do, use the GNU Lesser General Public License instead of this License. But first, please read <<http://www.gnu.org/philosophy/why-not-lGPL.html>>.

Mozilla Public License Version 2.0

1. Definitions 1.1. "Contributor" means each individual or legal entity that creates, to the creation of, or owns Covered Software. 1.2. "Contributor Version" means the combination of the Contributions of others (if any) used by a Contributor and that particular Contributor's Contribution. 1.3. "Combination" means Covered Software or a contributor. 1.4. "Covered Software" means Source Code Form to which the initial Contributor has attached the notice in Exhibit A, the Executable Form of such Source Code Form, in each case including portions thereof. 1.5. "Incompatible With Secondary Licenses" means a, that the initial Contributor has attached the notice described in Exhibit B to the Covered Software; or b, that the Covered Software was made available under the terms of version 1.1 or earlier of the License, but not also under the terms of a Secondary License. 1.6. "Executable Form" means any form of the work other than Source Code Form. 1.7. "Larger Work" means a work that combines Covered Software with other material, in a separate file or files, that is not Covered Software. 1.8. "License" means this document. 1.9. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently, any and all of the rights conveyed by this License. 1.10. "Modifications" means any of the following: a, any file in Source Code Form that results from an addition, to deletion from, or modification of the contents of Covered Software, or b, any new file in Source Code Form that contains any Covered Software. 1.11. "Patent Claims" of a Contributor means any patent claim(s), including without limitation, method, process, and apparatus claims, in any patent Licensable by such Contributor that would be infringed, but not for the grant of the License, by the making, using, selling, offering for sale, having made, import, or transfer of either its Contributions or its Contributor Version. 1.12. "Secondary License" means either the GNU General Public License, Version 2.0, the Lesser General Public License, Version 2.1, the GNU Lesser General Public License, Version 2.1, or any other compatible license. 1.13. "Source Code Form" means the preferred form of the work for making modifications. 1.14. "Subsequent Licensees" means any individual or entity exercising rights under this License. For legal entities, "You" includes any entity that controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise; or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity. 2. License Grants and Conditions 2.1. Grants Each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license a. under intellectual property rights (other than patent or trademark) Licensable by such Contributor to make, use, reproduce, make available, modify, display, perform, distribute, and otherwise exploit its Contributions, either on an unmodified basis, with Modifications, or as part of a Larger Work; and b. under Patent Claims of such Contributor to make, use, sell, offer for sale, have made, import, and otherwise transfer its Contributions or its Contributor Version. 2.2. Effective Date The License granted in Section 2.1 with respect to any Contribution becomes effective for such Contribution on the date the Contributor first distributes such Contribution. 2.3. Limitations on Grant Scope The License granted in this Section 2 are the only rights granted under this License. Notwithstanding Section 2.1(b) above, no patent license is granted by a Contributor: a, for any code module that a Contributor has removed from Covered Software; or b, for any code module that can be reasonably separated from the rest of the distribution of Covered Software, if it is distributed in a manner that causes it to be effectively part of a larger program. 2.4. Subsequent Licenses No Contributor makes additional grants as a result of Your choice to distribute the Covered Software under a subsequent version of this License (see Section 2.2) or under the terms of a Secondary License (if permitted under the terms of Section 3.3). 2.5. Representation Each Contributor represents that the Contributor believes its Contributions are its original creation(s) or it has sufficient rights to grant the rights to its Contributions conveyed by this License. 2.6. Fair Use This License is not intended to limit any rights You have under applicable copyright doctrines of fair use, fair dealing, or other equivalents. 2.7. Conditions Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in Section 2.1. 3. Responsibilities 3.1. Distribution of Source Form All distributions of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License. You must inform recipients that the Source Code Form of the Covered Software is governed by the terms of this License, and must not attempt to alter or restrict the recipients' rights in the Source Code Form. If You distribute Covered Software in Executable Form then: a, such Covered Software must be made available in Source Code Form, as well as in Executable Form, and You must provide a copy of the Source Code Form to the end user of the distribution; b, You must include a copy of this License in the Source Code Form; and c, You must include a copy of this License in the Executable Form under the terms of this License, or sublicense it under different terms, provided that the license for the Executable Form does not attempt to limit or alter the recipients' rights in the Source Code Form under this License. 3.2. Distribution of a Larger Work 3.3. Distribution of a Larger Work You may create and distribute a Larger Work under terms of Your choice, provided that You also comply with the requirements of this License for the Covered Software. If the Larger Work is a combination of Covered Software with a work governed by one or more Secondary Licenses, and the Covered Software is not Incompatible With Secondary Licenses, this License permits You to additionally distribute such Covered Software under the terms of such Secondary License(s), so that the recipient of the Larger Work may, at their option, further distribute the Covered Software under the terms of either this License or such Secondary License(s). 3.4. Notices You may not remove or alter the substance of any license notices (including copyright notices, patent notices, disclaimers of warranty, or limitations of liability) contained within the Source Code Form of the Covered Software, except that You may alter any license notices to the extent required to remedy known factual inaccuracies. 3.5. Application of Additional Terms You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any Contributor. You must make it absolutely clear that any such warranty, support, indemnity or liability obligation is offered by You, and not by any Contributor, and You must not represent or otherwise suggest that any such obligation is offered by any Contributor. 3.6. Inability to Comply Due to Statute or Regulation 3.6.1. If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be placed in a text file included with all distributions of the Covered Software under this License. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it. 3.6.2. Termination 3.6.3. The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis, if such Contributor fails to notify You of the non-compliance by some reasonable means, this is the first time You have received notice of non-compliance with this License from such Contributor, and You become compliant prior to 30 days after Your receipt of the notice. 3.6.4. If You initiate litigation against any entity by asserting a patent claim for infringement of a patent held by You or that is asserted by You against another entity, You must cease using the Covered Software under this License. The patent claim(s) asserted must be specifically related to the Covered Software, or this License shall terminate. 3.6.5. In the event of termination under Sections 5.1 or 5.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or Your contributors under this license prior to termination shall survive termination. 6. Disclaimer of Warranty 6.1. Covered Software is provided under this License on an "as is" basis, without warranty of any kind, either expressed, implied, or statutory, including, without limitation, warranties of merchantability, fitness for a particular purpose or non-infringement. The entire risk as to the quality and performance of the Covered Software is with You. Should any Covered Software prove defective in any respect, You (not any Contributor) assume the cost of any necessary servicing, repair, or correction. This disclaimer of warranty constitutes an essential part of this License. No use of any Covered Software is authorized under this License except under this disclaimer. 6.2. Limitation of Liability 6.2.1. Under no circumstances and under no legal theory, whether tort (including negligence), contract, or otherwise, or anyone who distributes Covered Software as permitted above, be liable to You for any direct, indirect, special, incidental, or consequential damages of any character including, without limitation, damages for lost profits, loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses, even if such party shall have been informed of the possibility of such damages. This limitation of liability shall not apply to claims for actual damages resulting from a breach of express or implied warranty, or if such damages are determined by a court of competent jurisdiction to be a result of the conduct of a party to this Agreement. 6.2.2. In no event will a party's liability under this section survive termination, or any limitation relating to this section may be brought only in the courts of a jurisdiction where the defendant maintains its principal place of business and such litigation shall be governed by laws of that jurisdiction, without reference to its conflict-of-law provisions. Nothing in this section shall prevent a party's ability to bring cross-claims or counter-claims. 6.3. Miscellaneous 6.3.1. This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformulated only to the extent necessary to make it enforceable. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not be used to construe this License against a Contributor. 10. Versions of the License 10.1. New Versions Mozilla Foundation is the license steward. Except as provided in Section 10.3, no one other than the license steward has the right to modify or publish new versions of this License. Each version will be given a distinguishing version number. 10.2. Effect of New Versions You may distribute the Covered Software under the terms of the version of the License under which You originally received the Covered Software, or under the terms of any subsequent version published by the license steward. 10.3. Modified Versions If you create software not governed by this License, and you want to create a new license for such software, you may create and use a modified version of this License if you rename the license and remove any reference to the name of Mozilla Foundation and/or a previous version of this License. A distribution of Source Code Form that is Incompatible With Secondary Licenses is not governed by this License. If You choose to distribute Source Code Form that is Incompatible With Secondary Licenses under the terms of a version of the License, the notice described in Exhibit B of this License must be present in the source code. 10.4. Distribution of Source Code Form Under this License, the notice described in Exhibit B of this License must be present in the source code. 10.5. Mozilla Public License v. 2.0. If a copy of the MPL was not distributed with this file, You can obtain one at <http://mozilla.org/MPL/2.0/>. This Source Code Form is subject to the terms of the Mozilla Public License, v. 2.0. If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice. You may add additional accurate notices of copyright ownership. Exhibit B - "Incompatible With Secondary Licenses" Notice This Source Code Form is "Incompatible With Secondary Licenses," as defined by the Mozilla Public License, v. 2.0.
